Beach Management Funding Assistance Program
Local Government Funding Request
Fiscal Year 2023/2024
Beach Projects Application

PART III: EVALUATION CRITERIA

1. Project Name: (as listed in the Strategic Beach Management Plan)

Anna Maria Island Beach Nourishment (Projects not covered under Federal authorization)

2. Project Description: Include county, location with reference to DEP range monuments, brief project history, and description of proposed activities.

The Anna Maria Island shoreline extends between Florida Department of Environmental Protection (FDEP) monument R-1 (at the north end of the island) and R-41 (at the south end of the island). The non-federal project area includes Coquina Beach (R-33 to R-41.5) and associated renourishment and stabilization projects and associated artificial reefs constructed as mitigation, the Longboat Pass jetty and associated geotextile tube at the south end of the island, and the Cortez Groins that were removed and re-constructed in 2016.

The County is requesting funds for the Coquina Beach 3-year physical monitoring report as part of the FY 23/24 application and increased funding for upcoming construction events submitted in the previous FY 22/23 application due to the present economic situation and ongoing market fluctuations.

The County is currently planning for three structural projects to be built in 2023/2024: (1) Coquina Beach Stabilization, (2) the Longboat Pass Jetty Rehabilitation, and (3) an additional mitigative artificial reef. Future investigation of the sand borrow source(s) and application for a new Coquina Beach Nourishment FDEP permit will follow the structural projects summarized as follows:

1. Coquina Beach Stabilization

The existing Coquina Beach structures include 20 groins approximately 90 feet in length between R-36 and R-41. The groins serve to retain the beach fronting Gulf Drive south of 13th Street South. The present condition of the existing groins is poor; the structures are degrading and pose a hazard to the beach going community. The County developed a feasibility study to evaluate alternatives to rehabilitate, remove and/or replace the Coquina Beach groins and evaluate alternative structural stabilization options to assist in reducing erosion on Coquina Beach. The feasibility study was conducted in combination with the Longboat Pass Jetty feasibility study due to their proximity and need to consider the potential for combined effects of the structures on the coastal system. The final report was submitted to the Department in December 2021. The following is our understanding of the funding status of the tasks associated with this project:

- The design and permitting phase for the Coquina Beach Stabilization Structures was funded in Agreement 20ME2.
- The next phases for plans, specifications, bidding, construction, construction administration, 1-year turtle monitoring and physical monitoring were included and approved as part of the request for FY 2022/2023.
- It is assumed that funds for the project will be contracted for state cost sharing under Agreement 22ME2, which is presently in process. This application requests an increase in constructions funds from previously approved amounts due to economic factors.

Beach Management Funding Assistance Program
Local Government Funding Request
Fiscal Year 2023/2024
Beach Projects Application

2. Longboat Pass Jetty

The Longboat Pass Jetty is located at the south end of Coquina Beach on Anna Maria Island, near R-41. The jetty has deteriorated since installation in 1957 and is semipermeable in its current condition. The completed feasibility study was submitted to the Department in December 2021 and the rehabilitation of the existing jetty is scheduled for construction planned in FY2023/2024. The following is our understanding of the funding status of the tasks associated with this project:

- Funds for design, permitting, construction, and construction administration were included and approved as part of the request for FY 2022/2023 in the non-federal beaches application (instead of an inlet program) since the jetty serves to stabilize Coquina Beach in addition to its navigational benefit.
- It is assumed that funds for the project will be contracted for state cost sharing under Agreement 22ME2, which is presently in process. This application requests an increase in constructions funds from previously approved amounts due to economic factors.

3. Artificial Reef

The County intends to construct the artificial reef as permit required project mitigation in the waters offshore of Anna Maria Island in conjunction with construction of the Coquina Beach structures and Longboat Pass jetty in FY2023/2024. The following is our understanding of the funding status of the tasks associated with this project:

- The design, permitting, construction, immediate post-construction delineation, and 1- year post-construction biological monitoring phases for the artificial reef were approved for fundings part of the request for FY 2022/2023.
- The County requests confirmation that funds for 2-year biological monitoring is included in an existing agreement.
- It is assumed that funds for the project will be contracted for state cost sharing under Agreement 22ME2, which is presently in process. This application requests an increase in constructions funds from previously approved amounts due to economic factors.

3. Use of Requested Program Funds: Provide a brief description of tasks to be completed in each requested phase (Feasibility, Design, Construction, Monitoring, or USACE Multiphase). Indicate which tasks are cost reimbursement from previous fiscal years.

Monitoring - Year 3 Physical Monitoring (report only) for the non-federal portion of the beach nourishment project.

Construction - Increased funding for estimated construction costs from previously approved amounts for the three structural projects described above to due recent and ongoing economic impacts associated with COVID-19 and other world events that have resulted in significant inflation, supply delays, and increased costs for labor, fuel, equipment, materials, and market fluctuations.

Beach Management Funding Assistance Program
Local Government Funding Request
Fiscal Year 2023/2024
Beach Projects Application

4. Map: Provide as an attachment. The map(s) of the project area must be formatted at a minimum of 1" = 200' scale and include a compass rose and legend.

Map elements must include:

1. **Project boundary:** DEP reference monuments and shoreline designated as critically eroded
2. **Eligibility:** Indicate lengths of eligible shoreline based on criteria outlined in Chapter 62B-36.007, F.A.C.
 - a. **Beach access locations:** indicate primary or secondary access, and include the shoreline length, number and location of auto parking spaces, mass transit stops, bike parking spaces, and public restroom facilities within 1/4 mile walking distance of each access
 - b. **Public lodging establishments:** include the length fronting the project shoreline, and include the length of street-side frontage for lodging within 1/4 mile walking distance of a secondary beach access location
3. **Recreational benefits:** Comprehensive list of current land use designations of properties fronting the project shoreline
4. **Value of upland property:** Include one-quarter mile buffer and provide a comprehensive list of the values of properties (data from year 2021) that are enclosed or intersected by the buffer. The 2021 property value tax roll data and ArcGIS shapefiles can be obtained from the Department of Revenue website: https://floridarevenue.com/property/Pages/DataPortal_RequestAssessmentRollGISData.aspx. See Guidance Document for more information.

5. Project length: Total restored project length (in feet) of the critically eroded area (as listed in the Strategic Beach Management Plan).

R-33 to R-41.5 (7,791 feet = 1.476 miles)

- 6. Eligibility:** Required for all beach projects pursuant to Chapter 62B-36.007, F.A.C. Provide as a separate attachment, if needed.
- **Location/Access Name:** Use the official name of the park or road that is associated with the public access.
 - **DEP Reference Monument:** Use the DEP monument that is closest to the main public access location.
 - **Type of Access:** Indicate Primary or Secondary beach access in accordance with the definitions in Chapter 62B-36, F.A.C.
 - **Width of Access/Frontage:** The length of the legal boundary (in feet) of the public access or lodging along the beach project shoreline. For public lodging establishments that do not front the beach, indicate the street-side length of the legal property boundary (in feet) that is used as the main access to the establishment.
 - **Number of Eligible Units:** A unit is defined as one automobile parking space, one rental unit in a public lodging establishment, one mass transit stop, or four bicycle parking spots.
 - **Additional Width from Eligible Units:** Total distance (feet) added to the Width of Access/Frontage. If there are multiple types of eligibility units used for this calculation, show the calculation separately for each.
 - **Total Eligible Shoreline:** Sum of the Width of Access/Frontage and Additional Width from Eligible Units columns. Eligible shorelines cannot overlap.
 - **Website Link for DBPR License:** Provide the link to the Department of Business and Professional Regulation (DBPR) website for proof of licensure for any public lodging establishments used for eligibility or the Recreational Benefits ranking criteria.

Location/ Access Name	DEP Reference Monument	Type of Access	Width of Access/ Frontage (ft)	Number of Eligible Units	Additional Width from Eligible Units (ft)	Total Eligible Shoreline (ft)	Website Link for DBPR License
See Attached							

7. Schedule and Budget: Provide as a separate attachment, if needed. Clearly indicate project phase: Feasibility (F), Design (D), Construction (C), Monitoring (M), or USACE Multiphase (USACE). Include the year of post-construction monitoring in the description.

- **Cost Reimbursement:** Specify eligible costs incurred during the three years prior to the current application's fiscal year that are not in a current DEP agreement and have not been reimbursed (this includes fiscal years 20/21, 21/22, and 22/23). Eligible costs will be added to the current funding request.
- **Current and Future Costs:** Specify eligible costs for the current application's fiscal year that are not in a current DEP agreement and have not been reimbursed as well as the estimated costs for the next 4 years. Note: If Construction costs are requested in the current fiscal year, then the Year 1 Post-Construction Monitoring costs will be added to the current funding request.

8. Tourism-related impacts: Criteria is calculated by the Department using 2021 data. For reference, tax data can be obtained from the Department of Revenue website: https://floridarevenue.com/taxes/pages/colls_from_7_2003.aspx. See Guidance Document for more information.

- ☐ Current funding request includes construction and year one post-construction monitoring
- ☐ Project is managed by two or more counties

Additional comments

9. Federal involvement: The documentation to verify authorization, federal cost share percentage, and status of funding award must be provided with the application materials for the award of points.

Is the project Federally authorized by the USACE?

Authorization Year:

Expiration Year:

Does this project have a signed USACE Chief's report or Civil Works Congressional authorization for the requested phase?

USACE federal cost share percentage for this project (excluding FCCE):

Select all that apply for the requested project phase(s) and include documentation with application materials.

- ☐ Executed USACE project agreement
- ☐ Included in USACE work plan
- ☐ Approved FEMA Project Worksheet
- ☐ Included in Congressional Appropriations Act
- ☐ Other documentation:

Beach Management Funding Assistance Program
Local Government Funding Request
Fiscal Year 2023/2024
Beach Projects Application

10. Storm damage reduction benefits: Criteria is calculated by the Department.

What is the volume (cy) of advanced nourishment lost since the last sand placement event of a beach restoration or nourishment project as measured above the Mean High Water contour? Data should be consistent with the annual post-construction monitoring reports.

For restoration projects, what is the historical erosion rate?

11. Cost effectiveness: Criteria is calculated by the Department. A project design analysis and supporting documentation must be provided with the application materials for the award of points. See Guidance Document for more information.

What is the proposed sand placement volume (cy)?

What is the nourishment interval (years)?

Select all that apply for the current project funding request:

- ☐ Enhanced longevity: Propose structural or design components that could extend the beach nourishment interval
- ☐ Dune addition: Incorporate new or enhanced dune structures or new or existing dune restoration and revegetation projects
- ☐ Innovative technology: Propose innovative technologies designed to reduce project costs
- ☐ Regionalization: Two or more local sponsors manage projects together or projects propose regional sediment management strategies to conserve sand resources or reduce project costs

Additional comments
for storm damage
reduction benefits and
cost effectiveness

12. Previous state commitment

Has the Department previously reviewed, approved, and cost-shared on a feasibility or design phase for this project? Yes

Has the current proposed project phase(s) received a partial state appropriation within 3 years of phase completion? No

Additional comments

13. Accessible beach area: Criteria is calculated by the Department. Provide additional information for consideration.

Beach Management Funding Assistance Program
Local Government Funding Request
Fiscal Year 2023/2024
Beach Projects Application

Describe the landward and seaward edge of the accessible beach width

Provide the project boundaries (R-monuments)

Provide citations of reference sources

14. Recreational benefits: Provide the percentage of linear footage within the project boundaries which is zoned recreational or open space; for commercial use; or to allow for public lodging establishment, or the equivalent. Provide additional documentation and DBPR website link in a separate attachment, if needed.

15. Mitigation of inlet effects: Criteria is calculated by the Department.

Additional comments

16. Successive unfunded requests

Is the current proposed project phase(s) a successive, unfunded request? If so, how many years of successive request(s) is the current application?

Does the successive request add the construction phase?

17. Environmental habitat enhancement: Criteria is calculated by the Department. See Guidance Document for more information.

Is the project within a designated critical habitat area for threatened or endangered species that is subject to extensive shoreline armoring?

Is the project within a non-designated area where extensive shoreline armoring threatens the habitat of threatened or endangered species?

If yes to either of the above, does the project exceed best management practices to incorporate turtle-friendly designs and management strategies to protect resources or benefit critical habitat preservation?

Beach Management Funding Assistance Program
Local Government Funding Request
Fiscal Year 2023/2024
Beach Projects Application

Provide an explanation and supporting documentation for the strategies which exceed best management practices

18. Readiness to construct

Does the project have an active state permit?

Yes

Does the project have an active federal permit? Yes

Permit number

Permit number

Authorization date

Authorization date

Expiration date

Expiration date

Have all necessary easements been acquired for the upcoming or proposed construction phase?

Yes

Has the necessary local funding been secured for the proposed project? If so, provide a copy of the draft Resolution. The signed Resolution is due by October 5, 2022.

Yes

Is an Erosion Control Line established along the project length?

Yes

Additional comments for readiness to construct

Provide additional information and comments below or attach supporting documents.

RESOLUTION R-22-132

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF MANATEE COUNTY FLORIDA, AUTHORIZING THE PARKS AND NATURAL RESOURCES DEPARTMENT TO FILE A LONG-RANGE BEACH EROSION CONTROL BUDGET PLAN WITH THE FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION; SUPPORTING THE PROJECT FOR WHICH FUNDING IS REQUESTED; CONFIRMING MANATEE COUNTY'S ABILITY TO SERVE AS LOCAL SPONSOR FOR PROJECTS AND THE COUNTY'S ABILITY TO FUND THE APPROPRIATE LOCAL SHARE OF PROJECTS; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, Parks and Natural Resources projects and studies relating to beach erosion control, beach preservation marine environmental protection, and hurricane protection are eligible for state funding consideration under the provisions of Chapter 161, Florida Statutes; and

WHEREAS, in order to qualify for State of Florida beach project funding, current State of Florida policy requires submission of a long-range beach erosion control plan by the local government entity which coordinates a county's beach erosion control program; and

WHEREAS, beach erosion control projects in Segment 11 (along the Gulf Coast of Anna Maria Island, encompassing the cities of Anna Maria, Holmes Beach and Bradenton Beach and including management of the adjacent inlets, Longboat Pass and Passage Key Inlet, as potential sediment sources) have been and are planned to be conducted by Manatee County as local project sponsor, with subsequent reimbursement of the federal and state shares of the eligible costs; and

WHEREAS, the Board of County Commissioners of Manatee County has determined that it is in the best interest of Manatee County to pursue all available funding in order to restore and maintain the beaches of Manatee County;

NOW THEREFORE BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MANATEE COUNTY, FLORIDA:

- | | |
|-----------|--|
| Section 1 | The Manatee County Parks and Natural Resources Department is authorized and directed to file a long-range beach erosion control plan with the Florida Department of Environmental Protection. |
| Section 2 | The Manatee County Board of County Commissioners supports beach erosion control projects for which funding is requested from the State of Florida. |
| Section 3 | Manatee County is able to serve as local sponsor for such projects and is able to provide the appropriate local funding share from the Tourist Development Tax Fund to implement beach erosion control projects. |

Resolution R-22-132

Section 4 This Resolution shall become effective upon adoption.

ADOPTED by the Board of County Commissioners of Manatee County with a quorum present and voting this _____ day of _____ 2022.
