| <p>Passage Key Inlet lies between V-302 &amp; R1, between Anna Maria Island and Passage Key. It is often used as a sediment source for Anna Maria Island nourishment projects; most recently for the 2020 Central beach Nourishment project and the 2020 Coquina Beach Nourishment project. The Passage Key IMS is underway and will be completed prior to the end of 2022. County is requesting design funds for geotechnical investigation and borrow area design. Staff have determined that the project is eligible for 75% state cost share.</p> |
