Beach Projects Application

PART III: EVALUATION CRITERIA

1. Project Name: (as listed in the Strategic Beach Management Plan)

Key Biscayne Beach Nourishment

2. Project Description: Include county, location with reference to DEP range monuments, brief project history, and description of proposed activities.

The Village of Key Biscayne (Village) beach is in Miami-Dade County, south of Bear Cut and north of Cape Florida, located between Florida Department of Environmental Protection (FDEP) R-monuments R-101 and R-108. The initial beach nourishment of Key Biscayne occurred in 1987, with placement of 420,000 cubic yards (cy) of fill between R-101 and R-113 as part of the federally authorized Key Biscayne Shore Protection Project. Fifteen years later, in 2002, 120,000 cy of fill was placed between R-101 and R-108 through a local project by the Village.

As a result of the 2005 Hurricanes Rita and Wilma, the Village constructed a dune restoration project in 2008 between R-103 and R-107 which placed 24,000 cy of fill to restore significant erosion due to storm damage. Additional reach renourishment took place in 2012, after Tropical Storm Sandy. 37,500 cy of fill was placed between R-102 and R-108 to renourish the severely eroded shoreline. The 2012 project utilized beach compatible fill material trucked from the Ortona Sand Mine in LaBelle, Florida. Monitoring for the 2012 project occurred through 2015 in accordance with permit requirements.

In 2016, the Village initially authorized design, permitting, and construction for another truck haul project to restore normal erosion. The fall Hurricane season found more significant impacts from Hurricane Matthew, resulting in a need for an emergency renourishment project to be authorized and self-funded by the Village Council. As designed, the initial plan was to place 35,000 cy of fill. After discussions with permitting agencies, the approved project placed 26,100 cy of beach fill between R-monuments R-101 +750 and R-107+750 to replenish the shoreline. Fill templates were designed to maximize replenishment, while avoiding impacts to nearshore seagrass.

The 2017 hurricane season majorly impacted the beach at the Village with Hurricane Irma. Severe erosion and sand loss occurred from this storm. Key Biscayne was in the natural disaster area by FEMA and qualified for FEMA's Public Assistance program to seek federal aid in costs to recover from impacts by Irma. As a result, in Spring 2021, 31,000 cy of trucked in, fill material was placed between R-102 and R-107+500. The design included dune fill and dune planting to restore eroded dune profile. Fill templates were designed and completed based on the final erosion volume through FEMA. Construction of the project, including dune planting, occurred between March 2021 and June 2021, and will include 3 years of post-construction monitoring to be completed in 2024.

An analysis of the past 30 years indicates that a patchwork of implemented beach renourishment projects, particularly after significant storm damage that contributed to severe beach erosion, has resulted in the more frequent need for beach renourishment. This piecemeal approach is no longer serving the beach dune ecosystem nor the man-made communities of the Village. The citizens of the Village utilize the beach as a major source of physical recreation. The economic and shore protection features of the beach are diminishing. Therefore, the Village council determined that a more prudent solution of the beach erosion was in order and directed that a beach management feasibility study project be developed. This study included an existing data and literature review/analysis, conceptual beach design, a preliminary submerged breakwater design, and a feasibility report.

The beach at Key Biscayne continues to suffer severe erosion on an annual basis, with and without the presence of major storm events due to the effects of a break in the littoral system at Government Cut. Based on years of monitoring, the Village typically loses 20,000 cy to 30,000 cy of sand in a 3- to 4-year period, requiring frequent nourishments to protect the upland community. These funds will be used to design and construct the next required truck haul nourishment between R-101+750 and R-107+750 in FY 2025. In addition, the funds will also be used to secure new U.S. Army Corps of Engineers, FDEP and Miami-Dade County Permits, as the historical permits are set to expire by April 2024. Permitting for this project will begin in FY 2021.

3. Use of Requested Program Funds: Provide a brief description of tasks to be completed in each requested phase (Feasibility, Design, Construction, Monitoring, or USACE Multiphase). Indicate which tasks are cost reimbursement from previous fiscal years.

Funds requested for FY 2023/2024 will be used to support the cost for the future design and construction of the next truck haul beach renourishment to be constructed in 2025. Funds were awarded for the permitting of the next beach nourishment through the 2021/2022 LGFR Program. No work has been completed on this future project.

Additional comments for storm damage reduction benefits and cost effectiveness

The design of the beach is limited by adjacent nearshore resources. The recent truck haul projects are limited in scale to avoid impacts to nearshore seagrass. An iterative analysis is performed to determine the maximum beach fill template currently permitted and reviewed with the predicted Equilibrium Toe of Fill (ETOF) analysis to avoid impacts to the nearshore seagrass.

15. Mitigation of inlet effects: Criteria is calculated by the Department.

Additional comments

Key Biscayne beach is negatively affected by the updrift inlet at Government Cut. This inlet is a littoral barrier to Fisher Island, Virginia Key, and Key Biscayne. No mitigation is in process or has been approved. There is also no inlet management plan for Government Cut.

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: Authorize the Village Manager to apply for Beach Management Funding Assistance in FY22/23 through the Florida Department of Environmental Protection (FDEP)

RECOMMENDATION

Authorize the Village Manager to apply for Beach Management Funding Assistance through the Florida Department of Environmental Protection (FDEP) for the Beach Nourishment Program in FY22/23

BACKGROUND

The Beach Management Funding Assistance Program is developing its annual prioritized list of beach and inlet management projects for the Agency's FY 2022-2023 Local Government Funding Request (LGFR). The Village of Key Biscayne applies to this program on an annual basis as external funds are available to offset the costs of maintaining the beach. This is a cost reimbursable grant with a match requirement that is covered by beach related funds from various agencies (FEMA, DEM, DEP).

Reviewed by Mr. Chad Friedman from Weiss Serota Helfman Cole & Bierman as to form and legal sufficiency.

RESOLUTION NO. 2022-_____

A RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, CONFIRMING THE VILLAGE'S ABILITY TO FUND AND SUPPORT THE PERMITTING, DESIGN, CONSTRUCTION, AND MONITORING OF THE VILLAGE'S BEACH RENOURISHMENT PROJECT; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Village of Key Biscayne (“Village”) is the entity responsible for the maintenance and preservation of the beach adjacent to the Village that is the subject of the Village's Beach Renourishment Project (the “Project”); and

WHEREAS, the Village recognizes the significant economic, recreational, environmental, and shore protection value that beach renourishment has provided since 1987 and continues to provide today; and

WHEREAS, the Village supports the permitting, design, construction, and monitoring of the Project, which is located approximately between Florida Department of Environmental Protection's Monuments R101 and R108 in Miami-Dade County, Florida; and

WHEREAS, the Village is willing to serve as the local sponsor for the Project and commits to appropriating full funding of the local share of a state approved project in its capital improvement budget for the design and permitting phase of the Project anticipated to begin in Fiscal Year 2024/2025; and

WHEREAS, the Village of Key Biscayne Village Council has determined that the Project and the adoption of this Resolution are in the best interest of the Village and its residents.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AS FOLLOWS:

Section 1. **Recitals.** That each of the above-stated recitals are hereby adopted, confirmed, and incorporated herein.

Section 2. **Funding of Project.** The Village confirms that it shall provide the balance of any funding required for the permitting, design, construction, and monitoring of the Project that is not funded by Miami-Dade County, FEMA, or by the State of Florida.

Section 3. **Effective Date.** That this Resolution shall be effective immediately upon adoption.

PASSED and ADOPTED this _____ day of _____, 2022.
