Beach Management Funding Assistance Program  
Local Government Funding Request  
Fiscal Year 2023/2024  
Beach Projects Application

**PART III: EVALUATION CRITERIA**

**1. Project Name:** (as listed in the Strategic Beach Management Plan)

North County Comprehensive Shore Protection Project, Segment 2 (South Jupiter)

**2. Project Description:** Include county, location with reference to DEP range monuments, brief project history, and description of proposed activities.

The South Jupiter Beach portion (Segment 2) of the North County Comprehensive Shore Protection Project is located in Palm Beach County, 1.1 miles south of the Jupiter Inlet, from R-19 to R-26. This 1.45 mile long section of critically eroded beach connects the Jupiter/Carlin (Segment 1) and Juno Beach (Segment 3) projects. The proposed project area has no history of beach nourishment. In 2016, the County placed 4,300 tons of sand within the dune system to provide additional storm protection to State Road A1A and existing dune crossovers. In September of 2017, Hurricane Irma resulted in erosion of 4,945 cubic yards of sand and 8,910 native dune plants. Funding Agreement 19PB16 provides funding for design and construction of a dune repair project. Dune restoration projects were also completed in FY2021 and FY2022.

A feasibility study to evaluate various shoreline protection alternatives has been completed. The results of the study support a limited beach nourishment project along this section, for which the County will conduct initial project design with a goal of a comprehensive project incorporating all three segments into a single fill event, thereby reducing project costs and increasing project performance.

Proposed activities include design and permitting of an initial fill event and consolidation of the three projects.

Beach Management Funding Assistance Program  
Local Government Funding Request  
Fiscal Year 2023/2024  
Beach Projects Application

**3. Use of Requested Program Funds:** Provide a brief description of tasks to be completed in each requested phase (Feasibility, Design, Construction, Monitoring, or USACE Multiphase). Indicate which tasks are cost reimbursement from previous fiscal years.

Requested FY2022 funds will reimburse Task Order 1543-14 additional engineering support required to finalize and complete the Feasibility Study.

Requested FY2023 funds will be used to design and permit a limited beach nourishment project as supported by the recently completed Feasibility Study.

**4. Map:** Provide as an attachment. The map(s) of the project area must be formatted at a minimum of 1" = 200' scale and include a compass rose and legend.

**Map elements must include:**

1. **Project boundary:** DEP reference monuments and shoreline designated as critically eroded
2. **Eligibility:** Indicate lengths of eligible shoreline based on criteria outlined in Chapter 62B-36.007, F.A.C.
  - a. **Beach access locations:** indicate primary or secondary access, and include the shoreline length, number and location of auto parking spaces, mass transit stops, bike parking spaces, and public restroom facilities within 1/4 mile walking distance of each access
  - b. **Public lodging establishments:** include the length fronting the project shoreline, and include the length of street-side frontage for lodging within 1/4 mile walking distance of a secondary beach access location
3. **Recreational benefits:** Comprehensive list of current land use designations of properties fronting the project shoreline
4. **Value of upland property:** Include one-quarter mile buffer and provide a comprehensive list of the values of properties (data from year 2021) that are enclosed or intersected by the buffer. The 2021 property value tax roll data and ArcGIS shapefiles can be obtained from the Department of Revenue website: [https://floridarevenue.com/property/Pages/DataPortal\\_RequestAssessmentRollGISData.aspx](https://floridarevenue.com/property/Pages/DataPortal_RequestAssessmentRollGISData.aspx). See Guidance Document for more information.

**5. Project length:** Total restored project length (in feet) of the critically eroded area (as listed in the Strategic Beach Management Plan).

The total length in the critically eroded area is 7,665 feet.

- **Location/Access Name:** Use the official name of the park or road that is associated with the public access.
- **DEP Reference Monument:** Use the DEP monument that is closest to the main public access location.
- **Type of Access:** Indicate Primary or Secondary beach access in accordance with the definitions in Chapter 62B-36, F.A.C.
- **Width of Access/Frontage:** The length of the legal boundary (in feet) of the public access or lodging along the beach project shoreline. For public lodging establishments that do not front the beach, indicate the street-side length of the legal property boundary (in feet) that is used as the main access to the establishment.
- **Number of Eligible Units:** A unit is defined as one automobile parking space, one rental unit in a public lodging establishment, one mass transit stop, or four bicycle parking spots.
- **Additional Width from Eligible Units:** Total distance (feet) added to the Width of Access/Frontage. If there are multiple types of eligibility units used for this calculation, show the calculation separately for each.
- **Total Eligible Shoreline:** Sum of the Width of Access/Frontage and Additional Width from Eligible Units columns. Eligible shorelines cannot overlap.
- **Website Link for DBPR License:** Provide the link to the Department of Business and Professional Regulation (DBPR) website for proof of licensure for any public lodging establishments used for eligibility or the Recreational Benefits ranking criteria.

[illegible]

Beach Management Funding Assistance Program  
Local Government Funding Request  
Fiscal Year 2023/2024  
Beach Projects Application

**7. Schedule and Budget:** Provide as a separate attachment, if needed. Clearly indicate project phase: Feasibility (F), Design (D), Construction (C), Monitoring (M), or USACE Multiphase (USACE). Include the year of post-construction monitoring in the description.

- **Cost Reimbursement:** Specify eligible costs incurred during the three years prior to the current application's fiscal year that are not in a current DEP agreement and have not been reimbursed (this includes fiscal years 20/21, 21/22, and 22/23). Eligible costs will be added to the current funding request.
- **Current and Future Costs:** Specify eligible costs for the current application's fiscal year that are not in a current DEP agreement and have not been reimbursed as well as the estimated costs for the next 4 years. Note: If Construction costs are requested in the current fiscal year, then the Year 1 Post-Construction Monitoring costs will be added to the current funding request.

| Fiscal Year | Project Phase | Description                                                                             | Federal Cost | State Cost | Local Cost | Total Cost |
|-------------|---------------|-----------------------------------------------------------------------------------------|--------------|------------|------------|------------|
| 20/21       |               |                                                                                         |              |            |            |            |
| 20/21       |               |                                                                                         |              |            |            |            |
| 20/21       |               |                                                                                         |              |            |            |            |
|             |               |                                                                                         |              |            |            |            |
| 21/22       |               |                                                                                         |              |            |            |            |

| 27/28       |               |                     |              |            |            |            |
| 27/28       |               |                     |              |            |            |            |

**8. Tourism-related impacts:** Criteria is calculated by the Department using 2021 data. For reference, tax data can be obtained from the Department of Revenue website: [https://floridarevenue.com/taxes/pages/colls\\_from\\_7\\_2003.aspx](https://floridarevenue.com/taxes/pages/colls_from_7_2003.aspx). See Guidance Document for more information.

- ☐ Current funding request includes construction and year one post-construction monitoring
- ☐ Project is managed by two or more counties

Additional comments

**9. Federal involvement:** The documentation to verify authorization, federal cost share percentage, and status of funding award must be provided with the application materials for the award of points.

Is the project Federally authorized by the USACE?

No

Authorization Year:

Expiration Year:

Does this project have a signed USACE Chief's report or Civil Works Congressional authorization for the requested phase?

USACE federal cost share percentage for this project (excluding FCCE):

Beach Management Funding Assistance Program  
Local Government Funding Request  
Fiscal Year 2023/2024  
Beach Projects Application

Select all that apply for the requested project phase(s) and include documentation with application materials.

- ☐ Executed USACE project agreement
- ☐ Included in USACE work plan
- ☐ Approved FEMA Project Worksheet
- ☐ Included in Congressional Appropriations Act
- ☐ Other documentation:

**10. Storm damage reduction benefits:** Criteria is calculated by the Department.

What is the volume (cy) of advanced nourishment lost since the last sand placement event of a beach restoration or nourishment project as measured above the Mean High Water contour? Data should be consistent with the annual post-construction monitoring reports.

For restoration projects, what is the historical erosion rate?

-33,500 cy/yr

**11. Cost effectiveness:** Criteria is calculated by the Department. A project design analysis and supporting documentation must be provided with the application materials for the award of points. See Guidance Document for more information.

What is the proposed sand placement volume (cy)?

What is the nourishment interval (years)?

Select all that apply for the current project funding request:

- ☐ Enhanced longevity: Propose structural or design components that could extend the beach nourishment interval
- ☐ Dune addition: Incorporate new or enhanced dune structures or new or existing dune restoration and revegetation projects
- ☐ Innovative technology: Propose innovative technologies designed to reduce project costs
- ☐ Regionalization: Two or more local sponsors manage projects together or projects propose regional sediment management strategies to conserve sand resources or reduce project costs

Additional comments  
for storm damage  
reduction benefits and  
cost effectiveness

Beach Management Funding Assistance Program  
Local Government Funding Request  
Fiscal Year 2023/2024  
Beach Projects Application

**12. Previous state commitment**

Has the Department previously reviewed, approved, and cost-shared on a feasibility or design phase for this project?

Has the current proposed project phase(s) received a partial state appropriation within 3 years of phase completion?

Additional comments

**13. Accessible beach area:** Criteria is calculated by the Department. Provide additional information for consideration.

Describe the landward and seaward edge of the accessible beach width

Provide the project boundaries (R-monuments)

Provide citations of reference sources

**14. Recreational benefits:** Provide the percentage of linear footage within the project boundaries which is zoned recreational or open space; for commercial use; or to allow for public lodging establishment, or the equivalent. Provide additional documentation and DBPR website link in a separate attachment, if needed.

**15. Mitigation of inlet effects:** Criteria is calculated by the Department.

Additional comments

**16. Successive unfunded requests**

Is the current proposed project phase(s) a successive, unfunded request? If so, how many years of successive request(s) is the current application?

Does the successive request add the construction phase?

Beach Management Funding Assistance Program  
Local Government Funding Request  
Fiscal Year 2023/2024  
Beach Projects Application

**17. Environmental habitat enhancement:** Criteria is calculated by the Department. See Guidance Document for more information.

Is the project within a designated critical habitat area for threatened or endangered species that is subject to extensive shoreline armoring?

Is the project within a non-designated area where extensive shoreline armoring threatens the habitat of threatened or endangered species?

If yes to either of the above, does the project exceed best management practices to incorporate turtle-friendly designs and management strategies to protect resources or benefit critical habitat preservation?

Provide an explanation and supporting documentation for the strategies which exceed best management practices

**18. Readiness to construct**

Does the project have an active state permit?

Yes

Does the project have an active federal permit?

Yes

Permit number

0303863-006-JM

Permit number

SAJ-2017-00019(MOD-LCK)

Authorization date

6/8/2018

Authorization date

9/19/2018

Expiration date

6/8/2033

Expiration date

9/19/2025

Have all necessary easements been acquired for the upcoming or proposed construction phase?

Yes

Has the necessary local funding been secured for the proposed project? If so, provide a copy of the draft Resolution. The signed Resolution is due by October 5, 2022.

Yes

Is an Erosion Control Line established along the project length?

No

Additional comments for readiness to construct

Construction of dune nourishment is currently authorized. Palm Beach County will be seeking a permit modification to construct a limited scope beach nourishment within the segment.
