Project Description
The Miami Beach Segment - Miami-Dade County Shore Protection Project is located between DEP monuments R38 and R74 in Miami-Dade County. Since 1978, the 7.35 mile long segment part of the Beach Erosion Control (BEC) and Hurricane Protection Project (HP) has received periodic nourishments and projects, at least twenty-one, to address localized erosional hotspots. There have been numerous nourishments since conception, with the most recent nourishments completed in May 2020 and August 2023. The requested funds are for year two, permit-required, post-construction monitoring of the 2023 renourishment project. Staff have determined that 100% of the project is eligible for state cost sharing.

Funds will be used for (list project phase, specify which phase is reimbursement, if applicable)
