

FY2025/2026 Local Government Funding Request

Draft Inlet Project Assessment

Project Name	Jupiter Inlet Management Plan Implementation
Local Sponsor	Jupiter Inlet District

Initial Assessment	8/20/2024
Group Assessment	8/29/2024
Draft Assessment	9/3/2024
Final Review	

Project Description
The Jupiter Inlet is located between DEP monuments R12 and R13 in Palm Beach County. The sand trap was first dredged in 1966, and has been dredged twenty-one times since. The FDEP Inlet Management Plan (IMP) was not established until 1997. A cutterhead dredge is most often utilized to excavate sand from the trap and pump it onto the beach immediately downdrift of Jupiter Inlet to restore and stabilize the shoreline. The beach placement area is one mile south of the inlet from DEP monuments R13 and R19. The United States Army Corps of Engineers (USACE) and/or Palm Beach County also nourishes the downdrift beach. The most recent sand trap dredging completed in 2024. The requested funds are for engineering construction plans, specifications, construction and environmental monitoring. Staff have determined that the project is eligible for a 50% state cost share.

Funds will be used for (list project phase, specify which phase is reimbursement, if applicable)
Construction (Sand Trap, Beach Fill, Surveys and Beach Tilling- Current & cost reimbursement for FY24/25)
