Subject: RE: Restore Act Submission - Monroe County Canals & Stormwater, File 1 of 4

Please note that the Monroe County Board of County Commissioners (BOCC) voted yesterday, March 20, 2013 to **approve** the **\$5,000,000 in local match funds** for our *Canal and Stormwater Quality Improvements* project. We are now quickly proceeding with the design, permitting and construction of several canal restoration projects. We are very hopeful that this will help advance our project submission with DEP for Restore Act funds.

Thank you,

Rhonda Haag
