Tallahassee, FL 32399

Governor Scott,

I am writing to support Pasco County's application for RESTORE Pot two monies for their Regional Reclaimed Water System project.

The Regional Reclaimed Water System phase one and two is an ongoing project currently being constructed in cooperation with the South West Florida Water Management District.

The Central Pasco Natural Systems Restoration and Aquifer Recharge Project monies will go toward the design, permitting and construction of facilities that will help to restore natural systems that have been impacted by groundwater withdrawals in central Pasco County.

The Crews Lake Natural Systems Restoration Project seeks to recover the levels of this 700 acre lake. Water levels are so depleted that it no longer fits the definition of a lake by either Florida's Department of Environmental Protection or the Southwest Florida Water Management District.

Please contact me if you have any further questions regarding my support for this project.

Regards,
