**City Hall
175 Fifth Street North
St. Petersburg FL 33701**

Dear Council Member Kornell,

I write today to express the support of Greater Pinellas Point Civic Association, of your proposal to City Council of the purchase of the Rahall property to be used as a preserve or passive park, thereby preserving the land and natural resources on it for future generations.

Greater Pinellas Point residents appreciate the green and gorgeous natural beauty of our waterfront parks, and we take the safety and maintenance of our park facilities very seriously. We have demonstrated our commitment to keeping our parks beautiful for all to enjoy by hosting park clean-up days, and encourage the use and preservation of our waterfront park facilities.

We ask the Mayor and Council to please consider the use of Weeki Wachee funds to purchase the Rahall property located on Boca Ciega Bay at 41st St S just north of 42nd Ave S. to preserve this natural gem for future generations.

It is our commitment to environmental action that will make our community the kind of place we all want and deserve to live in.

Please feel free to contact me with any questions at 727-866-2737 home or 727-460-9701 cell or by email jodib302004@yahoo.com.

Warm Regards,

**Jodi Davis, President
