C Project Description

Please provide more information about the proposed project (Limit 2,750 characters.)

As a direct impact resulting from the Deepwater Horizon Oil Spill response, potentially shorebird nests failed to produce offspring due to the enhanced level of activity on our beaches, including lighted night operations. This has the potential to impact the local 2010 recruitment for those shorebird species. This proposal is to acquire, restore, enhance and monitor habitat and to provide education programs for shorebirds.
