C Project Description

Please provide more information about the proposed project. (Limit 2,750 characters.)

Gulf County is home to many endangered/threatened species of wildlife. Sea turtles, beach mice, and various species of birds were directly affected as a result of the Deepwater Horizon Oil Spill.

This project would allow Gulf County to develop and implement a Habitat Conservation Plan to restore, enhance, protect and monitor these protected species, and provide education programs for locals and tourists.
