Subject: Support for Tri-County Artificial Reef Plan

The Franklin County Board of County Commissioners (BOCC) would like to express full support for the submittal of a Tri-County Artificial Reef Plan to the Florida State Portal. On June 21, 2016, the BOCC voted unanimously to direct its staff to submit this project to the State Portal.

Artificial reefs provide benefits to commercial fishermen, recreational anglers, sports divers, and non-users alike. As such, this project is a high priority for our community and we support an application for funding this project.

Please do not hesitate to contact me if I may be of further assistance.

Sincerely, 

William Massey,
Franklin County BOCC Chairman
