

NWAP PRIORITY RESTORATION PROJECTS

Oyster Reef Restoration East Bay

Partners:
NWFLAP

Funding Required:
\$2,000,000

Location:
Santa Rosa; 30.7690° N,
86.9824° W

Project Timeline:
4 Years

Project Objectives:

Creation of 2 miles of fossilized oyster reefs adjacent to existing project along Garcon Point Peninsula. Restoration of approximately 20 acres of oyster and fish habitat will provide wave attenuation and increased water quality in addition to restoration of historical habitat in Yellow River Marsh Aquatic Preserve.

Project Outcomes:
