

FL KEYS PRIORITY RESTORATION PROJECTS

LIGNUMVITAE KEY SEAGRASS RESTORATION

Partners:

FDEP/FCO, Florida Park Service (TBD), Florida Audubon (TBD)

Funding Required:

\$1,000,000

Location:

Monroe County;
24.5557° N, 81.7826° W

Project Timeline:**Project Objectives:**

Restore seagrass scars in vulnerable shallow seagrass areas throughout the Lignumvitae Key Aquatic Preserve/State Park with a combination of damage assessment, topographic restoration and bird stake installation, pre/post-restoration monitoring, and activities aimed at modifying boater behavior (education, channel marking, etc.).

Project Outcome:
