

## Florida Restoration Area

### Carpenter Creek Headwaters Water Quality Improvements

#### PROJECT DESCRIPTION

This project involves construction of a stormwater treatment facility and restoration of wetlands in Escambia County to improve water quality in the highly urbanized Carpenter Creek and Bayou Texar watersheds, which flow into Pensacola Bay. This project is a companion to the Carpenter Creek Headwater Park Amenities project, both of which are part of the Carpenter Creek and Bayou Texar Watershed Management Plan (funded through Escambia County's RESTORE Direct Component project). The Florida Department of Environmental Protection would be the implementing Trustee for this project.

#### RESTORATION TYPE

Water Quality

#### ESTIMATED COST

\$1,689,900
