

Florida Restoration Area

City of Carrabelle's Lighthouse Estates: Septic Tank Abatement - Phase II

PROJECT DESCRIPTION

This project aims to improve water quality in Apalachicola Bay and St. George Sound by connecting homes near the bay currently served by septic systems to a central wastewater treatment system, limiting the installation of additional septic systems within the area, as well as pre- and post-construction water quality monitoring. The Florida Department of Environmental Protection would be the implementing Trustee for this project.

RESTORATION TYPE

Water Quality

ESTIMATED COST

\$3,237,986
