

Florida Restoration Area

City of Port St. Joe Stormwater Improvements

PROJECT DESCRIPTION

This project involves stormwater improvements in a 280-acre sub-basin in the City of Port St. Joe, to provide stormwater treatment capacity and improved water quality protection for Patton Bayou and St. Joseph Bay. Additional work includes improvement of the conveyance system, for enhanced stormwater management and improved treatment efficiency and the development of a Stormwater Master Plan. The Florida Department of Environmental Protection would be the implementing Trustee for this project.

RESTORATION TYPE

Water Quality

ESTIMATED COST

\$961,000
