Project Summary

The 58-acre Suttlemyre Forest Additions are located in southern Putnam County, approximately three miles southeast of the Town of Orange Springs and six miles south of the Town of Interlachen. These additions abut the existing Etoniah/Cross Florida Greenway Florida Forever project boundary and the Suttlemyre Forest, which is in active acquisition with FDEP. Suttlemyre Forest is scheduled to close by August 2nd, 2025. If acquired, these additions will add high quality natural communities to the Suttlemyre Forest and will enhance management by “cleaning up” portions of the boundary. Additionally, this project will strengthen connectivity to the neighboring O’Connor Conservation Easement. Finally, the Suttlemyre Forest and these additions are within the Ocala to Osceola portion of the Florida Wildlife Corridor.

Attachment A

1. Location:

The Suttlemyre Forest Additions are located in southern Putnam County and is located approximately three miles northeast from the Town of Orange Springs and six miles south of the Town of Interlachen. Both additions abut the existing Etoniah/Cross Florida Greenway Florida Forever project boundary and the Suttlemyre Forest, which is in active acquisition with FDEP with an estimated closing date of August 2nd, 2025. These additions are located within the Ocala to Osceola portion of the Florida Wildlife Corridor and would strengthen connectivity within the Florida Ecological Greenways Network.

2. Resource Characteristics:

Physical: This addition is composed of three parcels that border the 1,540-acre Suttlemyre Forest. Suttlemyre Forest is an active, fee simple acquisition being acquired by the State with an estimated closing date of August 2nd, 2025. This boundary amendment is composed of two nearby tracts, one of which is located to the north and one is to the south. The northern tract is triangular, with two sides bordering the Suttlemyre Forest and the other side abutting a high voltage powerline. The southern tract consists of two parcels and borders both the Suttlemyre Forest and the neighboring O'Connor Conservation Easement.

Biological and Natural Resources: According to the Cooperative Land Cover map (version 3.7), this amendment is comprised of 92% Priority 2 of the Florida Ecological Greenways lands (B3). Approximately 91% of this project is within the Strategic Habitat Conservation Areas (B1) and 92% is designated as Rare Species FNAI Habitat Conservation Priorities (B2). Additionally, this entire project is within the Ocala to Osceola portion of the Florida Wildlife Corridor and strengthens connectivity between conserved lands.

Hydrological: 100% of this project is listed as Priority 3 or higher for Aquifer Recharge (D3), 92% is listed as Priority 4 or higher for Significant Surface Water Protection (C5), and 51% is listed as Priority 4 or higher for Functional Wetlands (C8).

Archaeological and Historical: There are no known archaeological or historical landmarks or features within the amendment boundary.

3. Public Use Opportunities:

As this amendment borders Suttlemyre Forest, an active acquisition which will soon close and be managed by the Florida Forest Service, these properties could be incorporated into any future surrounding public uses.

4. Potential Threats from Development:

As there is a limited number of inholdings or lands that border conserved lands, demand for parcels like these is increasing.

5. Local Resolutions related to the potential public acquisition of the project:

None known.

6. Florida Forever Criteria, Goals, and Performance Measures (Section 259.105(4), Florida Statutes):

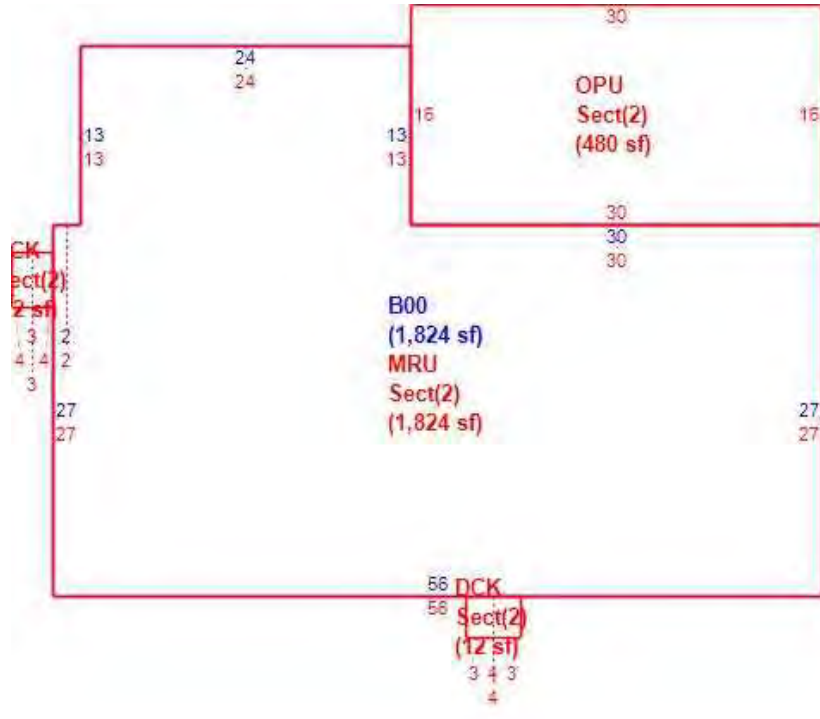

This project meets the following Florida Forever Goals: B1, B2, B3, B4, C4, C5, C8, D3, G1, G3, and I1. Table A6 on page 17 lists the number of acres and the percentage of the property for each Florida Forever Goal that this amendment meets. Additionally, this project aligns with the Florida Forever criteria described on line **9C** within *Criteria* [Section 259.105(9) and (10), F.S.].

7. Acquisition Type:

This addition is proposed as a fee simple acquisition. A management commitment letter from the Florida Forest Service is on page 18.

8. State Acquisition Lists:

None.
