[Florida Forever](#) is the state's conservation and recreation lands acquisition program. To be considered for acquisition, a project must have a willing seller and be on the Florida Forever Priority List. The Florida Forever Priority List identifies projects that are suitable as a conservation property and meet the [Florida Forever Goals, Performance Measures and Criteria](#).

The Florida Forever Priority List is developed by the Acquisition and Restoration Council (ARC) and is approved by the Board of Trustees (BOT). The BOT must approve a project placed on the Florida Forever Priority List before it can be pursued for acquisition.

Proposed projects are prioritized and ranked in categories by ARC members in December, and the BOT approves the ARC-recommended [Florida Forever Priority List](#) in March, when a project is officially added to the list.

Applications for new Florida Forever projects are accepted by the Florida Department of Environmental Protection (DEP) two times per year, April 15 and Oct. 15. To propose a new project for the Florida Forever Priority List, submit this application along with the supporting documentation specified in Attachments A-C below in electronic format (PDF) to the email address below.

Please note that up to 18 copies may be requested. Maps should be in color and set to print no larger than 11 inches x 17 inches. Applicants may also consult the Florida Natural Areas Inventory [Florida Forever Conservation Data Viewer](#) to ensure proposed parcels are not already within an approved project boundary.

General Information

Proposed Florida Forever Project: FL Wildlife Corridor Gaps - Ridge Manor Gap

Nearest City Ridge Manor, FL County(ies) Hernando

Sponsor/Affiliation Proposing Project: Putnam Land Conservancy

Mailing Address: PO Box 667 Interlachen FL 32148

Street City State ZIP

Primary Phone: 386-336-5400 Email: joanna@putnamlandconservancy.org

Supporting documentation

Attachment A. Provide a general description (narrative) of the land proposed including:

- 1) A descriptive location of the proposed project with total acreage.
- 2) The general physical, natural resource, biological, hydrological, archaeological and historical characteristics of the project.
 - a. Does the property contain historic structures 50 years old or older? If so, provide a brief description, photograph(s) and location.
 - b. Does the property contain any improvements/facilities? If so, please describe.
- 3) Potential public recreation opportunities or other public uses.
- 4) Potential threats or development plans that could impact the value of the proposed project.
- 5) Local resolutions related to the potential public acquisition of the project (if applicable).
- 6) Details on how the project meets Florida Forever criteria [see [Chapter 259.105](#)(9) and (10), F.S.] and furthers the Florida Forever goals and performance measures [see [Chapter 259.105](#)(4), F.S.]. Refer to the [application addendum](#) on the DEP website.
- 7) Whether the project is proposed for fee simple or less-than-fee acquisition.
 - a. If a less-than-fee acquisition is proposed, include a brief description of the current uses of the property. Also include any known activities or property rights proposed to be acquired by the state and those proposed to be retained by the property owner.
 - b. If project is proposed for fee simple acquisition, include the proposed land manager and a management commitment letter from the agency/entity upon application submittal. Applications for fee simple projects may be delayed if a management commitment from the recommended agency/entity is not included.
- 8) Whether the project is on another state acquisition list? If so, which one?

Attachment B. Ownership and tax information must include:

- 1) One copy of the county property appraiser's property tax card for each parcel of land within the proposal. The tax card should include the following:
 - a. Tax parcel identification number.
 - b. Just or market tax assessed value and tax assessed value.
 - c. Owners' names and addresses.
 - d. Description and value of improvements.
 - e. Tax parcel acreage and its improvements.
 - f. Ad valorem taxes assessed on the property.
- 2) If multiple parcels are included in the project proposal, summarize in table format by county, parcel ID, owner, acres and tax assessed value.
- 3) A letter from each property owner confirming their willingness to sell or a statement from the applicant asserting that each owner has been contacted.

Attachment C. Maps and Aerial Photographs

- 1) Provide shapefiles for the proposed project that depict the project boundaries or show the property boundaries on U.S. Geological Survey (USGS) topographic quadrangle map. USGS topographic quadrangle maps can be obtained from DEP's [Land Boundary Information System](#) (LABINS) or the [U.S. Geological Survey](#).
- 2) Mark the boundaries of the proposed addition on county tax maps, overlain on aerials if available. If tax aerial overlays are not available, aerials or [Digital Orthophoto Quadrangle](#) (DOQs) and tax maps should be submitted. DEP's [Map Direct](#) can also be used to assist with developing aerial and tax maps.
- 3) Mark the boundaries of the proposal on Florida Department of Transportation [county highway maps](#).

Authorized Representative

In accordance with the Florida Forever application process, the following individual is authorized as the primary point of contact for all matters concerning this application on behalf of the owner(s) and willing seller(s) of the real property described below, in Hernando County, Florida.

Property/Project name: FL Wildlife Corridor Gaps - Ridge Manor Gap

Name/Affiliation of Authorized Representative: Joanna Reilly-Brown, Putnam Land Conservancy

Mailing Address: PO Box 667 Interlachen FL 32148
Street City State ZIP

Primary Phone: 386-336-5400 Email: joanna@putnamlandconservancy.org

Please note: The landowner's signature above is not intended to preclude any representative of the Department of Environmental Protection, Division of State Lands (DSL), from contacting the property owner(s) directly concerning the property.

This form is not intended to create or acknowledge an exclusive property listing agreement or any business relationship between the owner(s) of the property and the individual(s) named above. Owner understands that any commission or fee charged by the person named above in connection with the property is the sole responsibility of the landowner.

This authorization will remain in effect throughout the application process unless written notice of rescission by the owner(s) named above is received by the DSL.

FL Wildlife Corridor Gaps – Ridge Manor Gap
New Project Application
Supporting Documentation

Attachment A.

1) Description.

Answer: *The proposed 4157-acre +/- FL Wildlife Corridor Gaps - Ridge Manor Gap project (RMG) will connect two disjunct tracts of the Withlacoochee State Forest (WSF) in the Ridge Manor area of Hernando County (Figure A1). The RMG area is bordered to the east and west by disjunct WSF tracts, to the north by the Little Withlacoochee River, and to the west by the Withlacoochee River itself. US Highway 301 bisects the RMG gap area from north to south. The Florida National Scenic Trail also borders the RMG to the west and south, with over 2.5 “road walk” miles of the southern portion of the Trail occurring along Ridge Manor Blvd.*

The current “gap” in protected land between the Ridge Manor WSF tracts is one of multiple highly parcelized, unprotected gaps within the greater statewide Florida Wildlife Corridor. The proposed RMG project seeks to offer a solution to closing this gap in the statewide Wildlife Corridor by making the large number of small parcels between the existing tracts of WSF eventually eligible for state acquisition after private sector aggregation into larger tracts. The WSF optimum boundary extends across about 977 acres of the western and northwestern-most parcels of the RMG area, confirming existing state interest in their acquisition for inclusion in the state forest.

The RMG is currently feeling the impacts of increased development pressure. According to local residents and conservation advocates, the area was platted in the 1960s and 1970s but recently the real estate market exploded such that every day neighbors report seeing new lots being actively cleared and listed for sale. In addition, much of the RMG area experienced sustained flooding of the Withlacoochee and Little Withlacoochee rivers during and for several months after Hurricane Milton in 2024. Given the increased development pressure and land clearing currently occurring in the RMG coupled with the potential for more frequent and sustained flooding associated with stronger storm seasons, the time is ripe for progress to be made on conserving this area and closing this critical gap in the statewide Florida Wildlife Corridor.

2) Characteristics.

A: *The RMG is described in greater detail in the answers to the Criteria evaluating how the project meets the Florida Forever goals and performance measures [Chapter 259.105(4), F.S.] below. Generally, the RMG contains 2,911 acres of Strategic Habitat Conservation Areas, 3,154 acres of Rare Species Priority Areas, 3,873 acres of FEGN Greenways, 655 acres of Underrepresented Natural Communities, 1,798 acres of Natural Floodplain, 4,130 acres of Significant Surface Water Features, 573 acres of Functional Wetlands, 4,163 acres of Aquifer Recharge, 180 acres of Sustainable Forestry, 167 acres of Forestland for Recharge, and 24.7 miles of Recreational Trail Opportunities. The Florida Master Site File identifies at least four cultural resource sites within the project boundary, including one cemetery. Gopher tortoises are documented within the RMG area and according to the FNAI biodiversity matrix several other species, including eastern indigo snake, red-cockaded woodpecker, and wood stork are likely to occur in the project area. FNAI also identifies RMG as potentially supporting Florida burrowing owl habitat. The Withlacoochee watershed habitats are recognized as providing supporting habitat for several species of birds, including bald eagle, swallow-tailed kite, red-shouldered hawk, and threatened Florida scrub jay populations.*

3) Potential Public Recreation.

A: *The eventual addition of parcels within RMG project to WSF would augment resource-based outdoor recreational opportunities in keeping with the recreational purpose of the State Forest. These include: hiking, horseback riding, birding, nature study, primitive camping, and fishing. The*

FL Wildlife Corridor Gaps – Ridge Manor Gap
New Project Application
Supporting Documentation

Florida National Scenic Trail extends along the western and southern border of the RMG, providing opportunities for hiking, biking, birding, and nature study to the public. The southern portion of the Florida Trail bordering RMG follows Ridge Manor Blvd and portions of State Road 50, forcing users to hike along busy roads for over 2.5 miles – as such, acquisition of RMG connecting the disjunct tracts of WSF would provide opportunity to extend the Florida Trail through protected lands, eliminating a sizeable road walk portion of the trail. Public acquisition of the RMG project area would therefore strengthen the connection between WSF and the Florida Trail, eliminating road walk areas of the Trail and providing an expanded set of recreational amenities available to public users.

4) Potential Threats and Development Plans.

A: Hernando County is developing rapidly as coastal residents move inland to escape the impacts of increased storms and population growth in coastal areas. Through 2021, Hernando County's population grew to 206,896, nearly 20% from the 172,987 people who resided there in 2010. For comparison, the population in the US grew 7.3% and the population in Florida grew 15.6% during that period. Increasing regional development in Hernando County heightens the need to protect lands surrounding WSF and the Withlacoochee River and to move quickly to close the RMG gap in the Florida Wildlife Corridor before the opportunity to close the gap is lost to development forever.

5) Local Resolutions.

A: There are no known local resolutions in support of or opposition to acquisition of the project.

6) Florida Forever Goals and Performance Measures [Chapter 259.105(4), F. S.]

A: Please refer to the answers to the Criteria evaluating how the project meets Florida Forever goals and performance measures beginning on page 10 below.

7) Fee or Less-than-Fee.

A: At this time, it is anticipated that acquisition of RMG lands will consist entirely of Fee transactions.

State Lands Goals and performance measures (Section [259.105\(4\)](#), Florida Statutes)

It is the intent of the Legislature that projects or acquisitions funded pursuant to paragraphs (3)(a) and (b) contribute to the achievement of the following goals, which shall be evaluated in accordance with specific criteria and numeric performance measures developed pursuant to s. [259.035\(4\)](#):

Goal A: Enhance the coordination and completion of land acquisition projects.

Measure A1: The number of acres acquired through the state's land acquisition programs that contribute to the enhancement of essential natural resources, ecosystem service parcels, and connecting linkage corridors as identified and developed by the best available scientific analysis.

A: The majority (93%) of the RMG area (3,861 +/- acres) is in the Priority 2 zone of the Florida Ecological Greenways Network (FEGN), also known as the Florida Wildlife Corridor. Priority 2 lands are considered crucial for landscape connectivity and landscape integrity. The proposed 4157-acre +/- FL Wildlife Corridor Gaps - Ridge Manor Gap project (RMG) will connect two disjunct tracts of the Withlacoochee State Forest (WSF) in the Ridge Manor area of Hernando County (Figure A1). Portions of RMG totaling 977 acres are in the WSF Optimum Boundary area (Figure A2). The RMG area is bordered to the east and west by WSF tracts, to the north by the Little Withlacoochee River, to the west by the Withlacoochee River and by the county-owned Cypress Lakes preserve to the southwest. The Florida National Scenic Trail also borders the RMG to the west and south, with over 2.5 "road walk" miles of the southern portion of the Trail extending along busy roads Ridge Manor Blvd and State Road 50.

The current "gap" in protected land between the Ridge Manor WSF tracts is one of multiple highly parcelized, unprotected gaps within the greater statewide Florida Wildlife Corridor. The proposed RMG project seeks to offer a solution to closing this gap in the statewide Wildlife Corridor by making the large number of small parcels between the existing tracts of WSF eventually eligible for state acquisition after private sector aggregation into larger tracts. The WSF optimum boundary extends to several of the western and northwestern-most parcels of the RMG area, confirming existing state interest in their acquisition for inclusion in the state forest.

4	0	0
5	12	14

FL Wildlife Corridor Gaps – Ridge Manor Gap

New Project Application

Supporting Documentation

Goal B: Increase the protection of Florida’s biodiversity at the species, natural community, and landscape levels, as measured by:

Measure B1: The number of acres acquired of significant strategic habitat conservation areas;

A: RMG contains 2,911 acres of Strategic Habitat Conservation Areas. See Figure B1 and table below.

Strategic Habitat Conservation Area Priority	Acres	% of RMG
1	0	0
2	467	11
3	1,875	45
4	1	0
5	568	14

Measure B2: The number of acres acquired of highest priority conservation areas for Florida’s rarest species;

A: RMG contains 3,154 acres of Rare Species Priority Areas. See Figure B2 and table below for acreage designated by FNAI as Priority Habitat for Florida’s rarest species.

Florida Forever Rare Species Habitat Priority	Acres	% of RMG
1	0	0
2	346	8
3	32	1
4	368	9
5	607	15
6	1,802	43

Measure B3: The number of acres acquired of significant landscapes, landscape linkages, and conservation corridors, giving priority to completing linkages;

A: The RMG would connect 160,113 acres of existing State Forest land and includes 978 acres identified by the Florida Forest Service as within the WSF optimum boundary. The proposed project would close an existing unprotected gap in the statewide Florida Wildlife Corridor. The RMG protects 2,911 acres of SHCA (Figure B1), includes a total of 3,873 acres of FEGN Greenways Priorities 2 and 5 (see table below and Figure B3), and includes a total of 3,154 acres of Rare Species Priority Areas (Figure B2, table in B2 above).

FNAI FF Ecological Greenways Priority	Acres	% of RMG
2	3861	93
5	11.6	0

Measure B4: The number of acres acquired of underrepresented native ecosystems;

A: The RMG protects and additional 655 acres of FNAI Florida Forever Conservation Needs Assessment Underrepresented Natural Communities (see table below and Figure B4).

FNAI FF Underrepresented Natural Communities	Acres	% of RMG
Scrub and Scrubby Flatwoods (G2)	456	11
Sandhill (G3)	191	5
Pine Flatwoods (G4)	8	0

Measure B5: The number of landscape-sized protection areas of at least 50,000 acres that exhibit a mosaic of predominantly intact or restorable natural communities established through new acquisition

FL Wildlife Corridor Gaps – Ridge Manor Gap

New Project Application

Supporting Documentation

projects or augmentations to previous projects; or

A: *The RMG connects an unprotected gap between 160,113 acres of existing Withlacoochee State Forest land. In addition, acquisition of lands within the RMG would close one of several existing gaps in the over 18 million-acre statewide Florida Wildlife Corridor.*

Goal C: Protect, restore, and maintain the quality and natural functions of land, water and wetland systems of the state, as measured by:

Measure C1: The number of acres of publicly owned land identified as needing restoration, enhancement, and management, acres undergoing restoration or enhancement, acres with restoration activities completed, and acres managed to maintain such restored or enhanced conditions; the number of acres which represent actual or potential imperiled species habitat; the number of acres which are available pursuant to a management plan to restore, enhance, repopulate, and manage imperiled species habitat; and the number of acres of imperiled species habitat managed, restored, enhanced, repopulated, or acquired;

A: *The RMG connects, enhances, and buffers 160,113 acres of existing Withlacoochee State Forest land. The Florida Forest Service maintains management plans for the WSF identifying restoration and management needs. The major natural communities found within the RMG area are Xeric Hammock, Urban Open Land, Scrub, and Mixed Hardwood Coniferous, which could be restored to a more natural condition with habitat management and reintroduction of fire where appropriate. In addition, lands within the RMG are currently subject to incompatible uses such as trespassing and unauthorized all-terrain vehicle use; acquisition and management of these lands would help curtail these unauthorized incompatible uses.*

Measure C2: The percentage of water segments that fully meet, partially meet, or do not meet their designated uses as reported in the Department of Environmental Protection's State Water Quality Assessment 305(b) Report;

A: *The Withlacoochee River, an Outstanding Florida Waterway that borders RMG to the west, is designated as impaired by the Florida Department of Environmental Protection. The Southwest Florida Water Management District is currently implementing a multi-year process to establish Minimum Flows and Levels along the upper section of the Withlacoochee River near RMG.*

Measure C4: The number of acres acquired that protect natural floodplain functions;

A: *The RMG contains 1,798 acres of Natural Floodplain, or 43% of the total proposed project area (see table below and Figure C4). RMG contains 661 acres of National Wetlands Inventory (NWI) Functional Wetlands, which provide natural floodplain and flood damage minimization functions and 573 acres identified by FNAI as Functional Wetlands. The RMG also contains 2,011 acres of land within the 100-year flood zone.*

Florida Forever Floodplain Priority	Acres	% of RMG
1	0	0
2	12	0
3	405	10
4	1,201	29
5	135	3
6	45	1

Measure C5: The number of acres acquired that protect surface waters of the state;

A: *The RMG contains 4,130 acres identified by FNAI as Significant Surface Water features, or 99% of its area (see table below and Figure C5).*

FL Wildlife Corridor Gaps – Ridge Manor Gap

1	0	0
2	1037	25
3	580	14
4	1,842	44
5	630	15
6	41	1

Measure C6: The number of acres identified for acquisition to minimize damage from flooding and the percentage of those acres acquired;

A: RMG contains 661 acres of National Wetlands Inventory (NWI) Functional Wetlands (see Figure C6) and 573 acres identified by FNAI as Functional Wetlands (see table below and Figure C8), which provide natural floodplain and flood damage minimization functions. In addition, over 40% of the RMG is identified by FNAI as Natural Floodplain. A sizeable portion of the RMG experienced sustained flooding in 2024 due to Hurricane Milton. The protection of these lands and prevention of further development in the RMG will minimize flood damage in the future.

Measure C8: The number of acres of functional wetland systems protected;

A: RMG contains 661 acres of National Wetlands Inventory (NWI) Functional Wetlands and 573 acres identified by FNAI as Functional Wetlands, which provide natural floodplain and flood damage minimization functions (see table below and Figure C8).

<i>Florida Forever Functional Wetlands Priority</i>	<i>Acres</i>	<i>% of RMG</i>
1	0	0
2	2	0
3	206	5
4	353	8
5	9	0
6	3	0

Measure C11: The number of acres of public conservation lands in which upland invasive, exotic plants are under maintenance control.

A: The RMG connects, enhances, and buffers 160,113 acres of existing Withlacoochee State Forest land. The Florida Forest Service maintains management plans for the WSF identifying restoration and management needs, including a program of invasive plant control.

Goal D: Ensure that sufficient quantities of water are available to meet the current and future needs of natural systems and the citizens of the state, as measured by:

Measure D1: The number of acres acquired which provide retention and storage of surface water in naturally occurring storage areas, such as lakes and wetlands, consistent with the maintenance of water resources or water supplies and consistent with district water supply plans.

A: According to the National Wetlands Inventory, the RMG contains 661 acres of natural wetlands (see Figure C6). The FNAI Functional Wetlands data identifies about 573 acres as Priority 3 and Priority 4 functional wetlands (see table above and Figure C8).

Measure D3: The number of acres acquired of groundwater recharge areas critical to springs, sinks,

FL Wildlife Corridor Gaps – Ridge Manor Gap
New Project Application
Supporting Documentation

aquifers, other natural systems, or water supply.

A: *The entire RMG project (4,163 acres) is designated by FNAI as containing Priority Aquifer Recharge lands (see table below and Figure D3). Over half of the project area (58%) is designated Priority 1 and 27% of the project area is designated as Priority 2, for a total of 85% of the project area designated as highest recharge priority.*

<i>Florida Forever Aquifer Recharge Priority</i>	<i>Acres</i>	<i>% of RMG</i>
1	2,391	58
2	1116	27
3	397	10
4	2	0
5	256	6

Goal E: Increase natural resource-based public recreation or educational opportunities, as measured by:

Measure E1: The number of acres acquired that are available for natural resource-based public recreation or education.

A: *If RMG is eventually added to WSF, it will augment current resource-based public recreation and educational opportunities available within the Forest. This may include additional areas for hiking, biking, bird watching, and other outdoor activity.*

Measure E2: The miles of trails that are available for public recreation, giving priority to those that provide significant connections including those that will assist in completing the Florida National Scenic Trail.

A: *According to FNAI data, RMG contains almost 25 miles of recreational trail opportunities between the Withlacoochee Croom Tract to the west and Ridge Manor Blvd to the south (see Figure E3). The Florida National Scenic Trail borders RMG to the west and south. The southern portion of the Florida Trail bordering RMG follows Ridge Manor Blvd and portions of State Road 50, forcing users to hike along busy roads for over 2.5 miles – as such, acquisition of RMG connecting the disjunct tracts of WSF would provide opportunity to extend the Florida Trail through protected lands, eliminating a sizeable road walk portion of the trail.*

Goal G: Increase the amount of forestland available for sustainable management of natural resources.

Measure G1: The number of acres acquired that are available for sustainable forest management.

A: *About 170 acres of the RMG property are ranked as Priority 3 for sustainable forestry, according to the FFCNA Sustainable Forestry data (see table below and Figure G1).*

<i>Florida Forever Sustainable Forestry Priority</i>	<i>Acres</i>	<i>% of RMG</i>
3	170	4
5	19	0

Measure G2: The number of acres of state-owned forestland managed for economic return in accordance with current best management practices;

A: *The RMG connects, enhances, and buffers 160,113 acres of existing Withlacoochee State Forest land. The Florida Forest Service maintains management plans for the WSF identifying economic return, restoration and management needs.*

FL Wildlife Corridor Gaps – Ridge Manor Gap
New Project Application
Supporting Documentation

Measure G3: The number of acres of forestland acquired that will serve to maintain natural groundwater recharge functions.

A: The RMG property contains about 167 acres of forestland that will serve to maintain natural groundwater recharge functions if acquired, according to the FFCNA Forest Recharge data (see table below and Figure G3).

Florida Forever Forestland for Recharge Priority	Acres	% of RMG
3	167	4

Goal I: Mitigate the effects of natural disasters and floods in developed areas.

Measure I1: The number of acres acquired within a 100-year floodplain or a coastal high hazard area.

A: About 2,011 acres of the RMG project, or just shy of 50% of the project area, fall within the 100-year floodplain (see table below).

FEMA Floodzone	Acres
A	23
AE	1989

Measure I2: The number of acres acquired or developed to serve dual functions as:

a. Flow ways or temporary water storage areas during flooding or high-water events, not including permanent reservoirs; and

A: Unknown.

b. Greenways or open spaces available to the public for recreation;

- A: Seventy-one miles of the Withlacoochee River is designated as a Paddling Trail by the State. A southern leg of this trail borders the RMG area to the west. The public has access along the entirety of the Withlacoochee River as an outstanding recreational asset. Any fee simple property acquired by a public agency may be managed to include public nature-based, passive recreation. Specifically, additions to Withlacoochee State Forest, or indeed, any adjacent lands that serve to enhance those public conservation areas, can be managed under the goals of its management plan. Both tracts of WSF currently have extensive public access components.*

Measure I4: The percentage of the land acquired within the project boundary that creates additional open spaces, natural buffer areas, and greenways within a floodplain, while precluding rebuilding in areas that repeatedly flood.

A: About half of the RMG (2,011 acres) falls within the 100-year floodplain, and FNAI identifies 43% (1,798 acres) of the total proposed project area as Natural Floodplain. In addition, much of the RMG flooded during Hurricane Milton and remained under water for months after the storm. Acquisition of the RMG will deter further building or development in these flood-prone areas.

FLORIDA DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES

COMMISSIONER WILTON SIMPSON

April 7, 2025

Ms. Callie DeHaven, Director
Division of State Lands, Mail Station 100
3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000

Dear Ms. DeHaven:

If acquired by the state, the Florida Forest Service (FFS) accepts management of the proposed Ridge Manor Gap Florida Forever Project identified on the attached map and located in Hernando County.

The subject property will increase the state forest's ecological value, provide additional public access and will benefit from multiple-use management activities consistent with Withlacoochee State Forest.

If you have any questions, please feel free to contact Alan Davis at (850) 681-5816 or Alan.Davis@FDACS.gov (Suite J, Room 235).

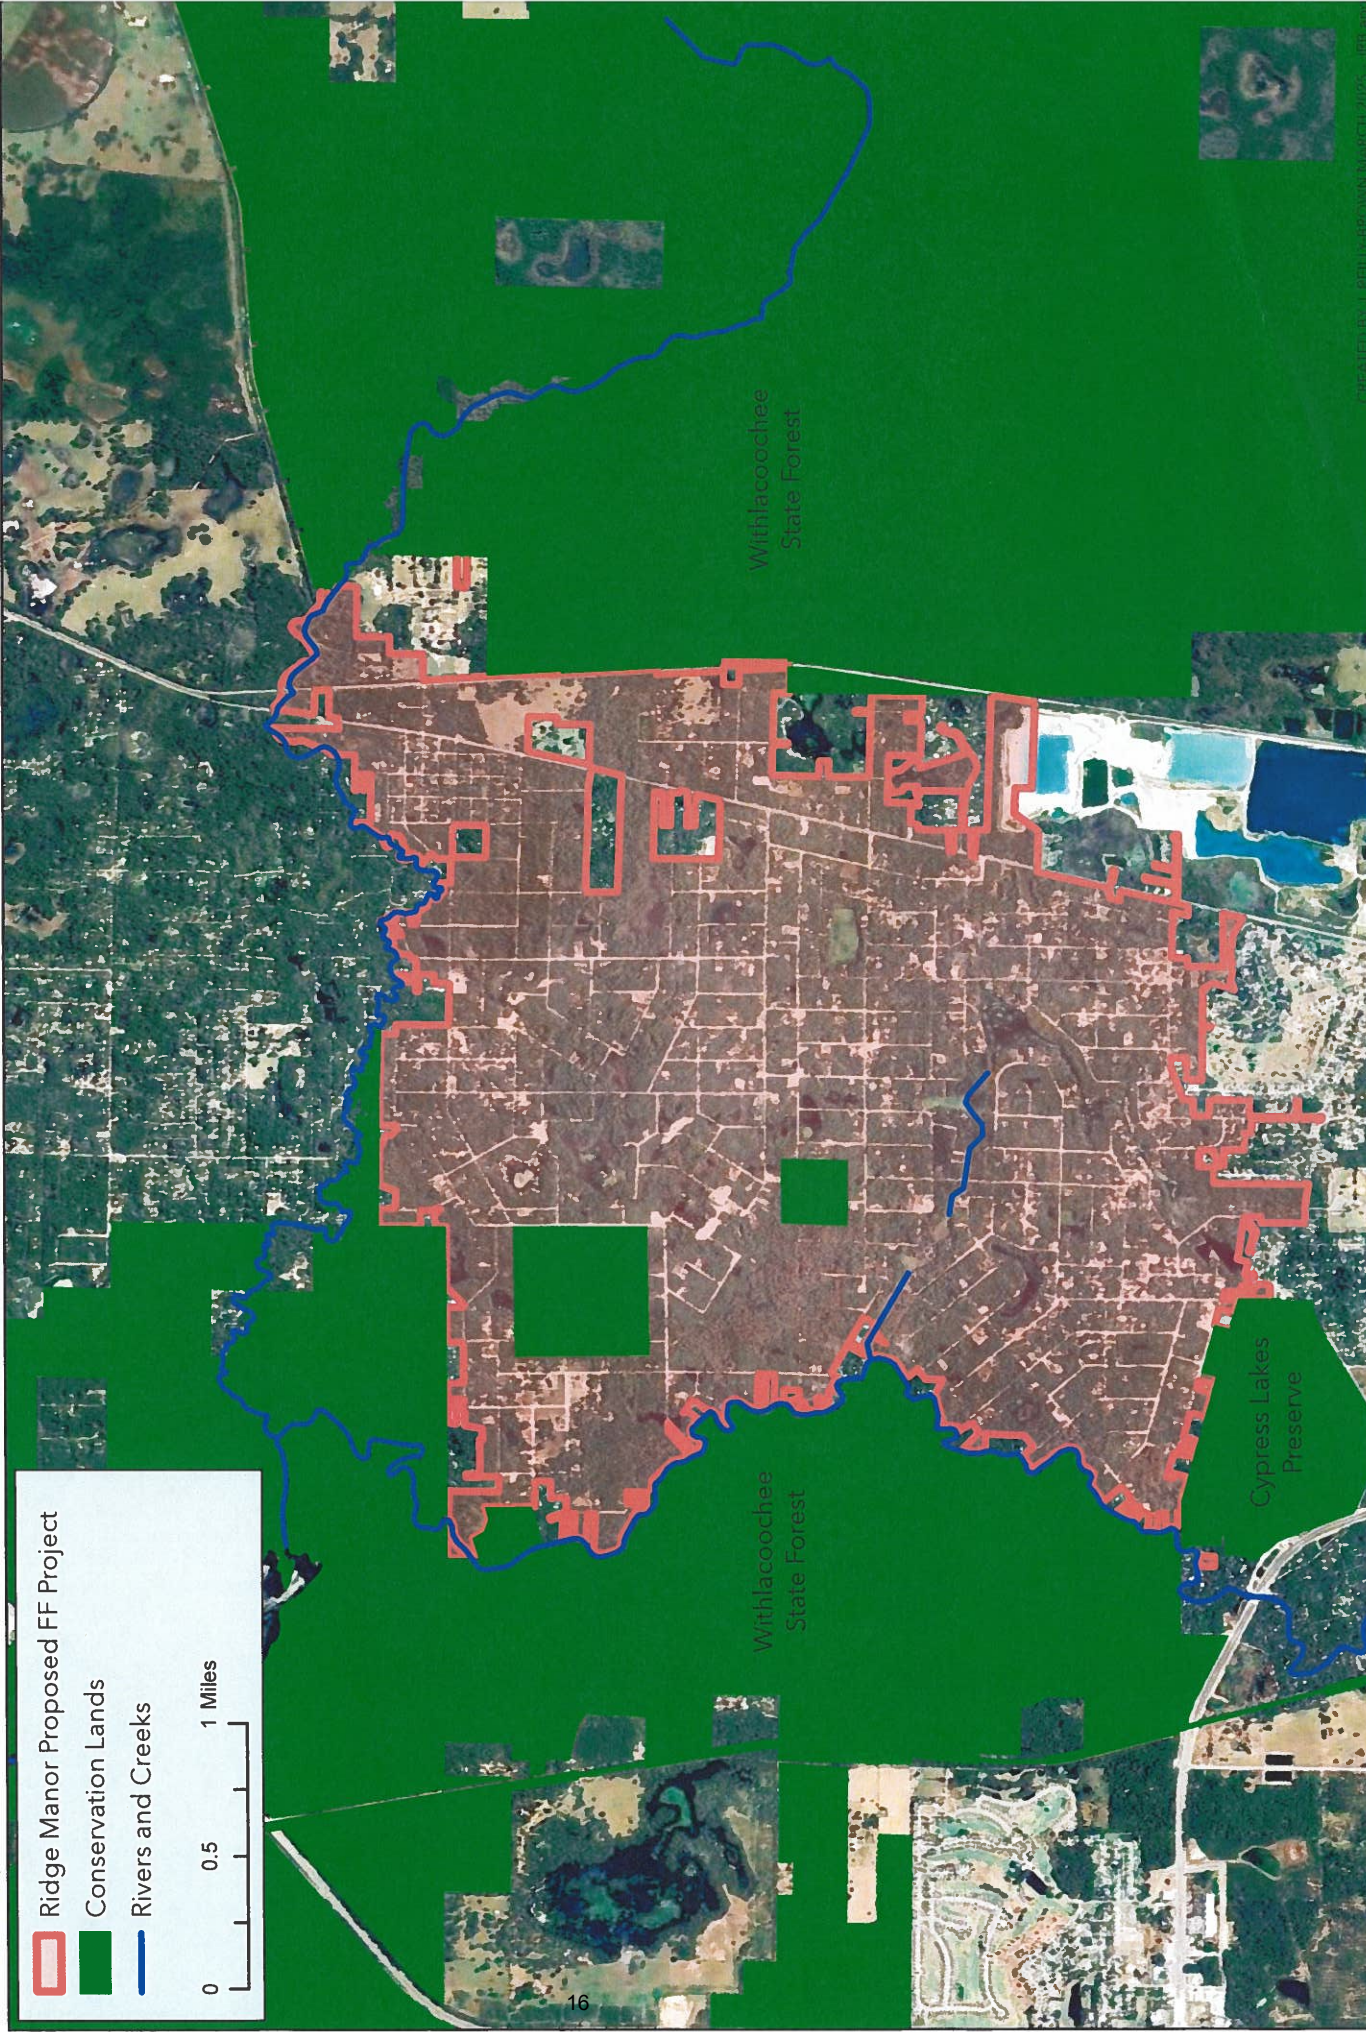

Thank you for your assistance in this matter.

Sincerely,

Rick Dolan, Director
Florida Forest Service

Re: Florida Forever Application - FL Wildlife Corridor Gaps – Ridge Manor Gap

Dear Ms. Murray,

This letter pertains to the Florida Forever new project application, FL Wildlife Corridor Gaps – Ridge Manor Gap, submitted by Putnam Land Conservancy.

I am asserting that, in accordance with Florida Statute 259.105(7)(b)2, that property owners within the proposed Florida Forever Boundary have been notified of their inclusion in the proposed project and that they can request to be removed from (“opt out of”) the project. Property owners that have requested to be removed from the proposed project have been.

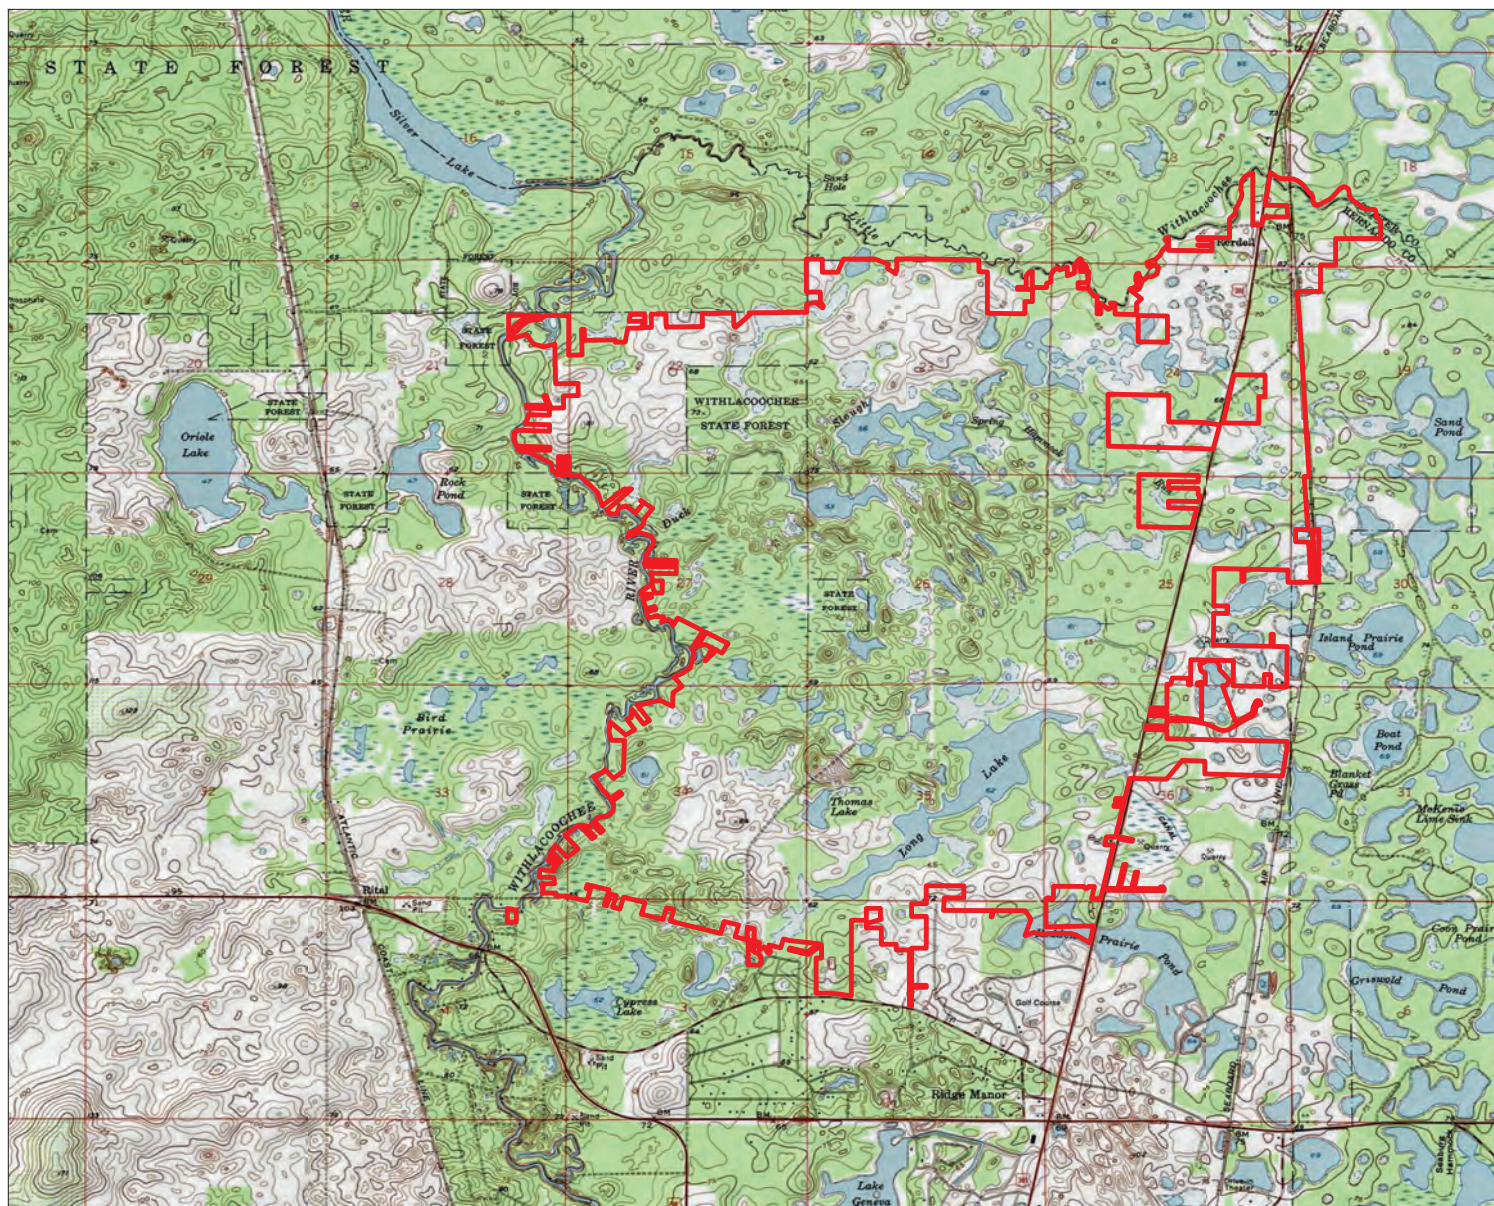

Sincerely,

Willy the Losen
Conservation Director and CEO
Putnam Land Conservancy

This map was compiled from a variety of Federal, State, and local data sources, Florida Department of Transportation (FDOT) aerial photography completed on January 2011, and previously published County General Highway Maps.

This map was prepared on the Albers Equal Area Conic Projection, 1983 North American Datum.

Some transportation data is provided by HERE and is Copyright 2015 HERE.

The railroad stations on this map do not necessarily denote the presence of a depot or life facility. It may be only a point, such as a platform or siding, designated for the receipt or delivery of freight. No attempt has been made to show all drainage canals or ditches.

All populations are taken from the United States Census Bureau, in 2010 the population of Hernando County was 172,778. There are 473 square miles in the county.

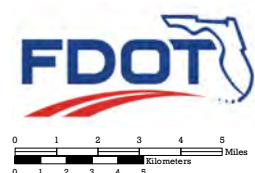

The Florida Department of Transportation (FDOT) is providing this data "as is," and FDOT disclaims any and all warranties, whether expressed or implied, including (without limitation) any implied warranties of merchantability or fitness for a particular purpose. In no event will FDOT be liable to you or any third party for any direct, indirect, incidental, consequential, special, or exemplary damages or lost profits resulting from any use or misuse of this data.

Maps of this series are in the public domain. The maps are compiled and published using public tax monies and are copyrighted to prevent reproduction and resale for profit.
