RE: DHR Project File No.: 2016-0107B
Project: *FPL Duval-Raven 230kV TLSA – Agency Report*

Dear Mr. Bull:

This agency has no objection to the certification of the FPL Duval-Raven 230kV Transmission Line. We recommend the following conditions of certification:

A. After the ROW has been selected, Licensee shall conduct a survey of sensitive cultural resource areas, as determined in consultation with the Department of State, Division of Historical Resources (DHR). A qualified cultural resources consultant will identify an appropriate work plan for this project based on a thorough review of the certified corridor. Prior to beginning any field work, the work plan will be reviewed in consultation with DHR. Upon completion of the survey, the results will be compiled into a report which shall be submitted to DHR. If practicable, sites considered to be eligible for the National Register shall be avoided during construction of the transmission line and access roads, and subsequently during maintenance of the ROWs. If avoidance by the proposed ROW of any discovered sites is not practicable, impact shall be mitigated through archaeological salvage operations or other methods acceptable to DHR, as appropriate.

B. If historical or archaeological artifacts are discovered at any time within the project site, Licensee shall notify the appropriate DEP District office(s) and DHR, R. A. Gray Building, 500 S. Bronough Street, Rm 423, Tallahassee, Florida 32399-0250, telephone number (850) 245-6333, and the Licensee shall consult with DHR to determine appropriate action.

[Sections 267.061 and 403.531, and Chapter 872.02, F.S.]

Mr. Bull
