

UNITED STATES NUCLEAR REGULATORY COMMISSION
FLORIDA POWER & LIGHT COMPANY
ACCEPTANCE FOR DOCKETING OF AN APPLICATION FOR
COMBINED LICENSE FOR TURKEY POINT UNITS 6 & 7 NUCLEAR POWER PLANTS
DOCKET NOS. 52-040 and 52-041

By letter dated June 30, 2009, as supplemented by a letter dated August 7, 2009, Florida Power & Light (FPL) submitted an application to the U.S. Nuclear Regulatory Commission (NRC) for a combined license (COL) for two AP1000 pressurized water reactors in accordance with the requirements contained in Title 10 of the *Code of Federal Regulations* (10 CFR) Part 52, "Licenses, Certifications, and Approvals for Nuclear Power Plants." These reactors will be identified as Turkey Point Unit 6 & 7 Power Plants and they are to be located at the existing Turkey Point facility in Miami-Dade County, Florida. A notice of receipt and availability of this application was previously published in the *Federal Register* (74 FR 38477) on August 3, 2009.

The NRC has determined that FPL has submitted information in accordance with 10 CFR Part 2, "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders," and 10 CFR Part 52 that is acceptable for docketing. The docket numbers established are 52-040 and 52-041.

The NRC will perform a detailed technical review of the application. Docketing of the application does not preclude the NRC from requesting additional information from the applicant as the review proceeds, nor does it predict whether the Commission will grant or deny

the application. The Commission will conduct a hearing in accordance with 10 CFR Part 2 and will receive a report on the COL application from the Advisory Committee on Reactor Safeguards in accordance with 10 CFR 52.87, "Referral to the Advisory Committee on Reactor Safeguards (ACRS)." If the Commission finds that the COL application meets the applicable standards of the Atomic Energy Act and the Commission's regulations, the Commission will issue a COL, in the form and containing conditions and limitations that the Commission finds necessary and appropriate.

In accordance with 10 CFR Part 51, the Commission will also prepare an environmental impact statement for the proposed action. Pursuant to 10 CFR 51.26, and as part of the environmental scoping process, the NRC intends to hold a public scoping meeting. Detailed information regarding this meeting will be included in a future *Federal Register* notice.

Finally, the Commission will announce in a future *Federal Register* notice the opportunity to petition for leave to intervene in the hearing required for this application by 10 CFR 2.104 and 52.85.

Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland, and will be accessible electronically through the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room link at the NRC Web site <http://www.nrc.gov/reading-rm/adams.html>. The application is also available at <http://www.nrc.gov/reactors/new-reactors/col.html>. Persons who do not have access to ADAMS or who encounter problems in accessing documents located in ADAMS should contact

the NRC PDR Reference staff by telephone at 1-800-397-4209, 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland this 4th day of September 2009.
