RE: Clarification of Pollution Control Devices
Subject to an Ad Valorem Assessment

Dear Mr. Oven:

I would like to thank you for your time last week in discussing pollution control devices with my staff. Pursuant to that meeting, I have enclosed detailed listings received from various businesses who report equipment to be assessed as pollution control devices.

It is my determination at this time, pursuant to Florida Statute §193.621(6), that I refer these items to your department for a recommendation. Please review these documents and advise accordingly as to whether said taxpayer is so entitled.

Should you require any additional information please contact Gary F. Boehmer, who is my Chief of Tangible Personal Property. Mr. Boehmer will be able to provide you with any assistance you may need.

Sincerely,

A handwritten signature in cursive script that reads 'Ron Alderman'.

Tallahassee, Florida 32399-2400

Dear Mr. Oven:

Pursuant to our meeting last week, enclosed you will find detailed listings from various businesses reporting pollution control equipment in Hillsborough County.

The audit procedure in my office failed to recognize that each business reporting pollution control facilities should have a DR-492 form included in their filing. Not knowing whether you required this form for your review, I have attached a copy of those that have filed one and they are in Packet A. Packet B are those who did not file the form for this year. In either case, should you require additional information on any of them, please do not hesitate to call me.

In addition, I would like to request a separate cover letter on each regarding your recommendation.

Sincerely,

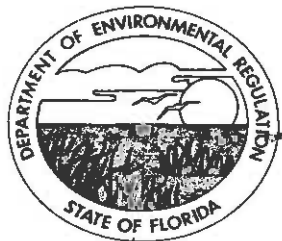

Ron Alderman, ASA, CFA
Hillsborough County Property Appraiser

Tampa, FL 33602

Dear Mr. Alderman:

Pursuant to Section 193.621, F.S., and Florida Administrative Code Chapter 17-8, I have reviewed the listings of pollution control equipment as submitted by your letter of October 18, 1990. The following are items deemed not eligible or may not be eligible since they do not control or abate air or water pollution:

- | | |
|---|---|
| 1. Anheuser-Busch | Bottle - can crusher |
| 2. Bonsal Company | 0609 - Dryer fuel conversion
0631 - Larger dryer modification
(explain how these control air pollution) |
| 3. Crown Door Corp. | Explain how #107 energy equipment, #119 sales tax audit, #122 crafty equipment, and #134 compacter control air pollution. |
| 4. Reeves Southeastern Corporation | Noise pollution soundproofing is not eligible - \$15,690.96. |
| 5. Reed Minerals | Project numbers - 273004, 273005 and 273007. |
| 6. Tampa Port Committee for Spillage Control Inc. | The majority of the items listed do not appear to be items taxable as tangible property with the exception of the steel boom building which of itself does not control pollution. |

The following companies appear to have eligible pollution control equipment.

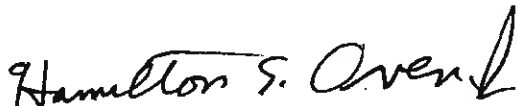

- a. POER-Bonsal Co. - #1755.0000
- b. IMC
- c. Crown Door Corp. - #138 Dust Bin
- d. Detsco Terminals, Inc.
- e. Gulf Coast Lead Company
- f. Johnson Controls
- g. David J. Joseph Company
- h. Marathon Petroleum Company
- i. Cargill
- j. Reynolds Metals Co.
- k. S&S Craftsmen, Inc.
- l. Trademark Nitrogen Corp.
- m. United Technologies Automotive
- n. Lehigh Portland Cement Co.
- o. Artex Services, Inc.
- p. Reed Minerals
- q. Florida Mining & Materials
- r. Griffin Industries, Inc.
- s. Florida Machinery & Equipment

LaFarge - #5788.000 and #5788.0002 may have some eligible pollution control equipment, but it is hard to determine from the information provided. The following items may be allowable:

0001 0022 030 003 - Dust collection
0001 0035 030 302 - Dust return, screw conveyor
0001 0036 030 970 - FM dust collectors, fans and motors
0001 0036 030 977 - Dust collection instrumentation
0001 0036 030 990 - Dust collector
0001 0081 030 561-565 - Masonry dust collection equipment
0001 0082 030 062 - Dust collection

If you have any questions on these matter, please contact me at (904) 488-1344.

RE: Folio Number 14903.4500

Dear Sir or Madam:

The tangible personal property tax return you filed for 1990 is being audited specifically on pollution control equipment. Additional information is necessary to make a determination of this classified use.

Therefore, pursuant to Section 193.621(5) Florida Statutes, please provide this office, within ten (10) days, a detailed listing of all the items reported under pollution control. Provide for each asset:

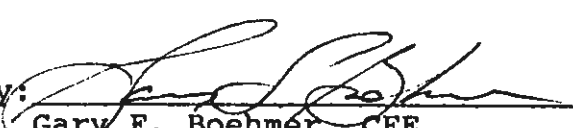

- Sufficient data for identification purposes;
- What the equipment is for (air, water, etc.);
- Actual date of installation; and
- Original installed cost of each.

Should you have any questions regarding this matter, please call this office immediately.

Sincerely,

Ron Alderman, ASA, CFA

RE: BONSAL COMPANY - POLLUTION CONTROL
TAX I.D. #1755.0000

Dear Mr. Boehmer:

We are in receipt of your letter requesting an audit of the referenced. As per this request, enclosed please find a copy of our detailed fixed asset schedule that we filed with the personal property tax return for the referenced.

The equipment highlighted is all related to air quality at the plant. Dryers, sand screens and dust collection equipment all help keep pollutants from the sakcrete out of the air.

We filed \$246,152 on our pollution control return; however, when I checked our addition, the number should have been \$246,431.

If you have any questions, please feel free to contact this office. ✓

Very truly yours,

Re: Folio Number 1968.0070 Pollution Control Equipment

Dear Gary:

I have enclosed a list of items describing the pollution control equipment on our 1990 tangible personal property tax return.

Sorry for the delay, but we had to request assistance from Brewster Phosphates to describe the items listed prior to 1987.

Should you have any questions, please call me.

Sincerely,

A handwritten signature in cursive script that reads "Randy".

Re: Detsco Terminals, Inc.
Folio No. 4053.0000

Dear Sir:

In response to your request of August 21, 1990, following is information concerning our pollution control equipment.

Per our return for 1990:

	<u>Date of Acquisition</u>	<u>Cost</u>	<u>Accumulated Depreciation</u>
Dust Control Equipment	1972	\$27,876.53	\$27,876.53

Included in this equipment was a weight scale, at a cost of \$12,856.00, leaving the true cost of the Dust Control equipment at \$15,020.53. This dust equipment was a Micro-Pulsar make, and was comprised of approximately (16) air bags, retainers, 10 HP motor, squirrel cage fan, and a housing structure. It was installed on January 1, 1972 at a cost of \$15,020.53. ✓

	<u>Date of Acquisition</u>	<u>Cost</u>	<u>Accumulated Depreciation</u>
Dust collector	1973	\$19,796.05	\$19,796.05

This equipment also includes the same as above (air bags, retainers, motor, fan, etc.), at a cost of \$19,796.05. ✓

One set of dust control equipment was placed on top of our phosphate warehouse for air control. The other set of equipment was placed on top of our silos to also maintain air control. ✓

Page Two

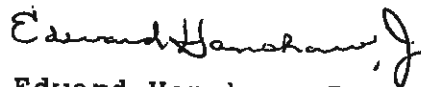

Property Appraiser of Hillsborough County
Attn: Gary Boehmer
Room 273-B
Hillsborough County Courthouse
Tampa, FL 33602

This is all the information which I can provide due to the age of these assets. Please keep in mind that this facility is, for all intents and purposes, shut down. We used to load phosphate rock, but lost the contract over two years ago. Please take this into consideration when assigning values. This equipment is fully depreciated and start-up costs will run high if ever called for.

Thank you in advance for any consideration you may afford us in any tax relief.

Sincerely,

DETSO TERMINALS, INC.

Dear Mr. Alderman:

This letter is in response to your request for more information concerning the pollution control equipment at The David J. Joseph Company's scrap processing plant in Tampa. At this location, automobiles are shredded into scrap metal. The shredding process generates significant amounts of dust. Over the period from April to August of 1985, a dust collection system was installed onto the auto shredder to prevent the dust from being released into the air. The system was installed at a cost of \$578,802.26. I hope that this information is sufficient for your purposes. If you need any additional information, please contact me.

Sincerely,

THE DAVID J. JOSEPH COMPANY

RE: Folio Number 8038.0000

Dear Sir or Madam:

The tangible personal property tax return you filed for 1990 is being audited specifically on pollution control equipment. Additional information is necessary to make a determination of this classified use.

Therefore, pursuant to Section 193.621(5) Florida Statutes, please provide this office, within ten (10) days, a detailed listing of all the items reported under pollution control. Provide for each asset:

- Sufficient data for identification purposes;
- What the equipment is for (air, water, etc.);
- Actual date of installation; and
- Original installed cost of each.

Should you have any questions regarding this matter, please call this office immediately.

Sincerely,

Ron Alderman, ASA, CFA

Re: Folio Number 9525.0000
Pollution Control Equipment

Dear Mr. Boehmer:

Per your written request of August 21, 1990 the following information pertains to the pollution control equipment installed in 1981 and 1982 at Marathon Petroleum Company's Tampa Terminal.

A Twin Edwards DE3200 Vapor Recovery Unit was installed in December, 1981 to meet deadlines set by Federal and State EPA regulations.

The vapor recovery unit is a facility for collecting and condensing vapors of volatile products being loaded into open tanks at refineries, terminals, and service stations. The vapors are drawn into a collecting tank and by pressure and cooling are condensed to a liquid. VR units significantly reduce air pollution by petroleum vapors.

A copy of the equipment account is attached which highlights the vapor recovery investment in 1981 and 1982.

If you have any questions or need additional information, please write or call me on extension 2359.

Sincerely,

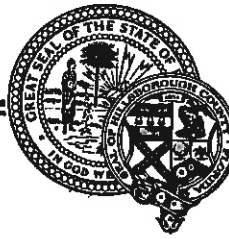

DeWayne C. Wendt
Tax Agent

TradeMark Nitrogen Corp.

August 29, 1990

Mr. Gary F. Boehmer
Property Appraiser
Room 273-B
Hillsborough County Courthouse
Tampa, Florida 33602

Dear Mr. Boehmer:

Re: Folio No. 15457.9000

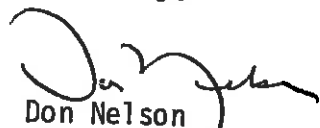

In response to your letter of August 21, 1990 relating to our 1990 Tangible Personal Property Tax Return, please find enclosed the information you requested on pollution control equipment.

I have highlighted the items specifically used for pollution control for the years 1974-1978. The equipment for years 1974, 1977, and 1978 was installed for water pollution control and the equipment for 1975 and 1976 was installed to control air pollution. Also highlighted are two items in 1986 with a cost of \$7,722.96 each. This was the cost of installing an effluent water containment area.

The other items listed as pollution control, such as the cellular phone and computer equipment, should not be classified as pollution control and should appear in the equipment classification. I have spoken to our CPA's, and it appears these items were added to pollution control by mistake. Please let me know what we should do to amend this information.

Should you have any questions on the enclosed information, please let me know.

Sincerely,

Don Nelson
Chief Accountant
