Re: Seminole Electric Cooperative, Inc.
Seminole Generating Station/Seminole Combined Cycle Facility, Putnam County Florida
Power Plant Certification No. PA 78-10
Post-Certification Amendment

Dear Ms. Mulkey:

Pursuant to Section 403.5113(1)(a), Florida Statutes and Rule 62-17.205, Florida Administrative Code, please accept this letter and attachments as a post-certification amendment to the Seminole Electric Cooperative, Inc. ("Seminole") Site Certification Application ("Application") for the Seminole Generating Station in Putnam County, Florida. This post-certification amendment addresses the installation of concrete pads for power loop distribution boxes.

This amendment is to install three 3ft x 6ft concrete pads to support distribution boxes for an underground power loop. The location of the pads are provided in the attached drawing. No dewatering will be required for the installation of these pads. Based on the final design criteria, the existing stormwater system has adequate capacity to handle stormwater runoff from the addition of these pads.

The installation of these pads will not cause any adverse environmental impacts or require any changes to the existing Conditions of Certification for the Seminole Generating Station.

If the Department concurs, Seminole requests that the Department approve the requested amendment and provide written notification of the same to Seminole, all reviewing agencies, and all parties to the original certification. If you or any of the parties have any questions or concerns, or require additional information, please contact me at (813) 963-0994, ext 1224 or Justin Gostnell at (813) 963-0994, ext. 1375 or by email at jgostnell@seminole-electric.com.

Sincerely,

A handwritten signature in blue ink, appearing to read "Lewis Snyder", enclosed within a blue oval.

Lewis Snyder,
Director of Regulatory Compliance
