Re: FPL Levee-Midway - Midway Substation Amendments, TA 89-07

Dear Ms. Braun:

The Department of Environmental Protection has reviewed the proposed amended connection plan for circuits connecting the Midway Substation to the Levee-Midway transmission line. Since the revised connection scheme falls within the certified corridor, no additional environmental review is required. The Department has no objection to the revised connection scheme provided that the forthcoming EMF submittal demonstrates compliance with DEP Rule Chapter 62-814.

Sincerely,

Hamilton S. Oven, P.E.  
Administrator, Siting  
Coordination Office
