Juno Beach, FL 33408

Re: FPL Pellicer-Pringle TLP
Amendment to PATA05-13

Dear Mrs. Braun;

On September 17, 2007, the Florida Department of Environmental Protection (DEP) Siting Coordination Office (Siting) and DEP NED received a post-certification submittal from WPE Consulting, Inc. on behalf of Florida Power and Light (FPL) for approval to construct a 4.2 mile 230kV transmission line for the Pellicer-Pringle section of the St. Johns-Pellicer-Pringle Transmission Line Project.

On October 17, the NED issued a Request for Additional Information regarding the submittal. Additional information was submitted to the NED on August 22, 2008. Complete information was submitted on September 12, 2008

Pursuant to PPSA Rule 62-17.191, F.A.C., within 90 days after complete information is submitted for post-certification review, the department shall give written notification to the licensee of its assessment of whether there is reasonable assurance of compliance with the conditions of certification. FPL is required to comply with the conditions of certification and applicable rules and regulations of the Department pursuant to Condition of Certification Section II.

The NED has reviewed your submittal, and based on the information received on September 12, 2008 and additional supporting information, the Department has determined that there is reasonable assurance that the construction of a 4.2 mile 230kV transmission line for the Pellicer-Pringle section will comply with the conditions of certification including applicable Department rules.

Letter of Acceptance - St. John Pellicer-Pringle

If you have any questions regarding this determination please contact Ann Seiler in the Siting Office at (850) 243-8006 or Jeff Martin in the NED at 904/807-3300/Ext. 3314.

Sincerely,

Michael P. Halpin, P.E.
